Postnational Constellation:

The Postnational Constellation Jürgen Habermas, 2018-03-12 Does a global economy render the traditional nation state obsolete Does globalization threaten democratic life or offer it new forms of expression What are the implications of globalization for our understanding of politics and of national and cultural identities In *The Postnational Constellation* the leading German philosopher and social theorist Jürgen Habermas addresses these and other questions He explores topics such as the historical and political origins of national identity the catastrophes and achievements of the long twentieth century the future of democracy in the wake of the era of the nation state the moral and political challenges facing the European Union and the status of global human rights in the ongoing debate on the sources of cultural identity In their scope critical insight and argumentative clarity the essays in *The Postnational Constellation* present a powerful vision of the contemporary political scene and of the challenges and opportunities we face in the new millennium Those unfamiliar with Habermas's theoretical work will find in this volume a lucid and engaging introduction to one of the world's most influential thinkers For readers familiar with Habermas's writings *The Postnational Constellation* provides an invaluable application of his social and political theories to current political realities

The Politics of Belonging Alain Dieckhoff, 2004-01-01 *The Politics of Belonging* represents an innovative collaboration between political theorists and political scientists for the purposes of investigating the liberal and pluralistic traditions of nationalism Alain Dieckhoff introduces an indispensable collection of work for anyone dealing with questions of identity ethnicity and nationalism

NGOs as Legitimate Partners of Corporations Dorothea Baur, 2011-08-21 The interaction between corporations and non governmental organizations NGOs has become an important topic in the debate about corporate social responsibility CSR Yet unlike the vast majority of academic work on this topic this book explicitly focuses on clarifying the role of NGOs not of corporations in this context Based on the notion of NGOs as political actors it argues that NGOs suffer from a multiple legitimacy deficit they are representatives of civil society without being elected the legitimacy of the claims they raise is often controversial and there are often doubts regarding the legitimacy of the behaviour they exhibit in putting forward their claims Set against an extended sphere of political action in the postnational constellation this book argues that the political model of deliberative democracy provides a meaningful conceptualization of NGOs as legitimate partners of corporations and it develops a conceptual framework that specifically allows distinguishing legitimate partner NGOs from two related actor types with whom they share certain characteristics but who differ with respect to their legitimacy These related actor types are interest groups on the one hand and activists on the other hand In conclusion it argues that a focus on the behaviour of NGOs is most meaningful for distinguishing them from interest groups and activists

Habermas and Contemporary Society J. Sitton, 2003-08-15 Over the last four decades Jürgen Habermas has forged an innovative and much discussed theory of contemporary capitalist society Building on Max Weber's thesis that the dynamic of capitalism actually erodes individual

freedom and the meaningfulness of social life famously resulting in a culture of specialists without spirit sensualists without heart Habermas traces contemporary social conflict to resistance to this dynamic by a variety of social groups His theory of communicative action attempts to show the possibilities in contemporary society for moving toward a more balanced social life that unlike other political currents today would not sacrifice the truly progressive features of complex modern societies By marginalizing methodological and other more specialized theoretical concerns this book focuses on Habermas s substantive portrayal of contemporary society and its discontents The Green State Robyn Eckersley,2004-03-05 What would constitute a definitively green state In this important new book Robyn Eckersley explores what it might take to create a green democratic state as an alternative to the classical liberal democratic state the indiscriminate growth dependent welfare state and the neoliberal market focused state seeking she writes to navigate between undisciplined political imagination and pessimistic resignation to the status quo In recent years most environmental scholars and environmentalists have characterized the sovereign state as ineffectual and have criticized nations for perpetuating ecological destruction Going consciously against the grain of much current thinking this book argues that the state is still the preeminent political institution for addressing environmental problems States remain the gatekeepers of the global order and greening the state is a necessary step Eckersley argues toward greening domestic and international policy and law The Green State seeks to connect the moral and practical concerns of the environmental movement with contemporary theories about the state democracy and justice Eckersley s proposed critical political ecology expands the boundaries of the moral community to include the natural environment in which the human community is embedded This is the first book to make the vision of a good green state explicit to explore the obstacles to its achievement and to suggest practical constitutional and multilateral arrangements that could help transform the liberal democratic state into a postliberal green democratic state Rethinking the state in light of the principles of ecological democracy ultimately casts it in a new role that of an ecological steward and facilitator of transboundary democracy rather than a selfish actor jealously protecting its territory **Law, Democracy and Solidarity in a Post-national Union** Erik Oddvar Eriksen,Christian Joerges,Florian Rödl,2008-07-04 Investigates how the values of the rule of law solidarity and democracy can be understood in the European Union in order ensure the sustainability of the European political order The European Constitution, Welfare States and Democracy Christoffer C. Eriksen,2011-10-06 This book explores how the right to the free movement of goods persons services and capital in the European Union legal order affects welfare states These four freedoms as they are known are vital instruments for the protection of a European market unencumbered by internal frontiers The European Constitution Welfare States and Democracy explore the relationships and conflicts that have emerged between the European constitution and the legal regulation of mixed economies and markets within welfare states In particular it examines the threat posed to the discretionary powers enjoyed by national governments and administrative authorities Christoffer C Eriksen has undertaken a

comprehensive analysis of a series of judgments in which the European Court of Justice has clearly indicated the ways in which the four freedoms may be incompatible with the current practice of entrusting national administrative authorities with discretionary powers and thus highlights how the four freedoms are provoking democratic dilemmas previously neglected in the academic literature The book is written in a style which communicates beyond an audience of specialized legal scholars and although it includes analysis of black letter law its methodology also draws from the disciplines of philosophy political science and sociology Routledge Revivals: Anthony Elliott: Early Works in Social Theory Anthony Elliott,2021-02-25 The volumes in this set originally published between 1999 and 2003 draw together early works in social theory by leading sociologist Anthony Elliott The collection covers some of his major works in the field of social theory with a particular focus on psychoanalysis and social theorists within the area of sociology The works in this set make accessible previously unavailable works from the early stages of Anthony Elliott's ongoing and prolific career to date *Self and Other: Essays in Continental Philosophy of Religion* Eugene Thomas Long,2007-04-11 The essays in this volume focus on some of the topics that are shaping recent continental philosophy of religion These primary topics include self and other evil and suffering religion and society and the relation between philosophy and theology The articles are by an international group of leading contributors to recent continental philosophy of religion Debating Cosmopolitics Daniele Archibugi,2020-05-05 Cosmopolitics the concept of a world politics based on shared democratic values is in an increasingly fragile state While Western democracies insist ever more vehemently upon a maintenance of their privileges freedom of speech security wealth an increasing number of the world's inhabitants are under threat of poverty famine and war What is needed the writers suggest is a deliberate decision to extend the principles and values of democracy to the sphere of international relations Recent experience does not bode well but their arguments which range from reform of the United Nations reduction of military weapons additional power for international judiciary institutions and an increase in aid to developing countries urge new and inspired action

The Ends of Solidarity Max Pensky,2009-01-01 Jürgen Habermas's discourse theory demands that human beings see themselves in relations of solidarity that cross national racial and religious divides While his theory has won adherents across a spectrum of contemporary debates the required vision of solidarity has remained largely unexplored In *The Ends of Solidarity* Max Pensky fills this void by examining Habermas's theory of solidarity while also providing a comprehensive introduction to the German philosopher's work Pensky explores the impact of Habermasian discourse theory on a range of contemporary debates in politics and ethics including the prospect of a cosmopolitan democracy across national borders the solidarity demanded by the integration process in the European Union the demands that immigration dynamics make on inclusive democratic societies the divisive or unifying effects of religion in Western democracies and the current controversies in genetic technology **For a New West** Karl Polanyi,2014-11-10 At a recent meeting of the World Economic Forum in Davos it was reported that a ghost was haunting the deliberations of the assembled global elite that of the

renowned social scientist and economic historian Karl Polanyi In his classic work *The Great Transformation* Polanyi documented the impact of the rise of market society on western civilization and captured better than anyone else the destructive effects of the economic political and social crisis of the 1930s Today in the throes of another Great Recession Polanyi s work has gained a new significance To understand the profound challenges faced by our democracies today we need to revisit history and revisit his work In this new collection of unpublished texts lectures draft essays and reports written between 1919 and 1958 Polanyi examines the collapse of the liberal economic order and the demise of democracies in the inter war years He takes up again the fundamental question that preoccupied him throughout his work the place of the economy in society and aims to show how we might return to an economy anchored in society and its cultural religious and political institutions For anyone concerned about the danger to democracy and social life posed by the unleashing of capital from regulatory control and the dominance of the neoliberal ideologies of market fundamentalism this important new volume by one of the great thinkers of the twentieth century is a must read

The Quest for Civil Order Chor-yung

Cheung,2013-12-04 Examines four notable thinkers in the field of modern social and political theory with a view to determining how far it is possible to create and maintain a non coercive but sustainable political order under conditions of diversity in contemporary Western democracies

Justice for All Steven Scalet,2003 Collection of essays adapted from an undergraduate honors conference held at Binghamton University which address contemporary issues in political philosophy

Christianity and Human Rights John Witte, Jr, Frank S. Alexander,2010-12-23 Combining Jewish Greek and Roman teachings with the radical new teachings of Christ and St Paul Christianity helped to cultivate the cardinal ideas of dignity equality liberty and democracy that ground the modern human rights paradigm Christianity also helped shape the law of public private penal and procedural rights that anchor modern legal systems in the West and beyond This collection of essays explores these Christian contributions to human rights through the perspectives of jurisprudence theology philosophy and history and Christian contributions to the special rights claims of women children nature and the environment The authors also address the church s own problems and failings with maintaining human rights ideals With contributions from leading scholars including a foreword by Archbishop Desmond Tutu this book provides an authoritative treatment of how Christianity shaped human rights in the past and how Christianity and human rights continue to challenge each other in modern times

Habermas Hugh Baxter,2011-05-17 This book offers a critical analysis of the complex theory of law and democracy developed by celebrated German philosopher and public intellectual Jurgen Habermas

The Question of Peace in Modern Political Thought Toivo Koivukoski, David Edward Tabachnick,2015-04-08 The essays in *The Question of Peace in Modern Political Thought* address the contribution that political theories of modern political philosophers have made to our understandings of peace The discipline of peace research has reached a critical impasse where the ideas of both realist peace and democratic peace are challenged by contemporary world events Can we stand by while dictators violate the human

rights of citizens Can we impose a democratic peace through the projection of war By looking back at the great works of political philosophy this collection hopes to revive peace as an active question for political philosophy while making an original contribution to contemporary peace research and international relations **Global Fragments** Eduardo Mendieta,2012-02-01 Global Fragments offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized *Multiple Modernities and Postsecular Societies* Kristina Stoeckl,2016-04-15 Engaging with the idea that the world reveals not one but many routes to modernity this volume explores the role of religion in the emergence of multiple forms of modernity which evolve according to specific cultural conditions and interpretations of the modern project It draws upon case study material from Africa The Middle East Russia and South America to examine the question of whether modernity democracy and secularism are universalistic concepts or are on the contrary unique to Western civilization whilst considering the relationship of postsecularism to the varied paths of modern development Drawing together work from leading social theorists this critical theoretical contribution to current debates will appeal to sociologists social theorists and political scientists with interests in religion secularization and postsecularization theory and transitions to modernity in the contemporary globalized world **Politics Most Unusual** Damian Cox,M. Levine,Saul Newman,2015-12-04 How has 9 11 and the declaration of the global war on terror changed our conceptions of politics How has it affected our understanding of democracy personal freedom and government accountability In answering these and other questions the authors engage in a comprehensive and critical analysis of politics in the age of terrorism

Delve into the emotional tapestry woven by in Experience **Postnational Constellation** . Postnational Constellation Introduction

In the digital age, access to information has become easier than ever before. The ability to download Postnational Constellation has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Postnational Constellation has opened up a world of possibilities. Downloading Postnational Constellation provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Postnational Constellation has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Postnational Constellation. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Postnational Constellation. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Postnational Constellation, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Postnational Constellation has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By

doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Postnational Constellation Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Postnational Constellation is one of the best book in our library for free trial. We provide copy of Postnational Constellation in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Postnational Constellation. Where to download Postnational Constellation online for free? Are you looking for Postnational Constellation PDF? This is definitely going to save you time and cash in something you should think about.
