The History of The Quranic Text: from Revelation to Compilation Muhammad Mustafa Al-Azami, 2008-01-01 This expansive book provides unique insights into the holy text's immaculate preservation as well as exploring many of the accusations leveled against it The reception of divine revelations Prophet Muhammad's role in disseminating and compiling these verses and the setting of the text's final external shape are scientifically examined alongside such topics as the origins of Arabic the so called Mushaf of Ibn Masud and the strict methodology employed in assembling textual fragments By way of comparison the author investigates the histories of the Old and New Testaments relying entirely on Judeo-Christian sources and uncovers a startling range of alterations in the biblical Scriptures Using this as a springboard he illustrates convincingly that Western research into Islam's Holy Book is motivated by more than mere curiosity and has no scientific bearing on the Quran's integrity This monumental effort a scholarly work composed in an impassioned tone provides a welcome foundation for sincere study at a time when assailing the Quran has become all too common

Fall of Capitalism and Rise of Islam Mohammad Malkawi, 2010-04-22 The Fall of Capitalism and the Rise of Islam provides a critical analysis of the current financial crisis in the US and the world at large It concludes that the current crisis could very well be a sign of failure of the underlying system of capitalism The book shows that the system of capitalism contains serious faults and defects at the core theory level Economic and financial crisis periodically occur whenever these defects are triggered by various conditions and political decisions during the life of capitalism The collapse of financial institutions the crash of the housing market the evaporation of trillions of dollars the creation of virtual unreal wealth and the decline of productivity are symptoms of the potential failure of the ideology of capitalism This failure has serious impact on the life quality of billions of people around the world who suffer from poverty hunger health insecurity lack of education and serious inhuman conditions The world order under capitalism witnessed multiple world wars political and economic instability colonialism absence of peace deprivation of justice and polarization of wealth and power This book predicts a potential crash and collapse of the world order under the pressure of a failing capitalism Concurrent to the decline and potential collapse of capitalism the book makes an account of another global phenomenon namely the second rise of Islam The rise of Islam similar to the first one that lasted for thirteen hundred years is a comprehensive rise that brings up the economic system together with the political system and the moral system together with the legal system It is much needed and sought to introduce to the world a system full of justice fairness and geared toward productivity and human righteousness The new rise of Islam is argued to be in the best interest of the human societies around the world and that the propagated fear of this rise is unfounded The book provides a detailed description of the economic system and the political economy of Islam It provides compelling evidence that the Islamic political economy characterized by sustained productivity and wealth distribution guarantees the satisfaction of the basic needs of a human The Islamic political economy integrates several mechanisms for natural distribution of wealth while

through the way of Islam in today's anti-spiritual environment. Within its pages, history unfolds, mysteries are unveiled, and secrets are revealed that shed light on the great human story of spiritual awakening and fulfillment. This rigorous and highly readable introduction to Islam goes a long way to remedy the lack of historical perspective and the narrowing of intellectual and spiritual scope contributing to the outer and inner crisis of the Muslim world as well as the poor understanding of this religion in the West. Another significant merit of Herlihy's book is the way it sets out the universal principles of Islam shared with other traditional faiths and its emphasis on the moral and spiritual fruits of the religion. This work is an invaluable resource for Muslims and non-Muslims alike, providing as it does a solid grounding in the traditional spirit of Islam.

Patrick Laude, professor at Georgetown University Edmund A. Walsh School of Foreign Service, Qatar. Readers will find that this timely work by John Herlihy offers a sublime contribution to the field of Islamic Studies. Relevant for Muslims and non-Muslims alike, one of the book's major themes is that the Islamic tradition converges with the unanimous tradition residing at the heart of each of the world's religions. The book reminds us that the foundations of the modern and postmodern world were formulated in revolt from the sacred, which is an essential point to be recognized by anyone seeking to understand the crisis that consumes the contemporary epoch. This work provides ultimate answers to ultimate questions.

Samuel Bendeck Sotillos, editor of *Psychology and the Perennial Philosophy Studies in Comparative Religion*. Amidst widespread misconceptions of Islam generated by Western media, readers who wish to understand the true nature of this noble tradition and its related spirituality will find this volume a trustworthy and illuminating guide. As a Western convert, philosopher, and above all, practitioner, John Herlihy is well-placed to dispel the fog of misunderstanding which often surrounds the subject of Islam. This book will be warmly welcomed by all those wishing to understand the timeless message of Islam by seekers looking for practical guidance and by those concerned with fostering a more harmonious global community of religions.

Harry Oldmeadow, author of *Frithjof Schuon and the Perennial Philosophy*. **The Handy Islam Answer Book** John Renard, 2015-01-19. A western non-Muslim Islamic scholar demystifies and explains one of the world's great religious traditions. In an age of continued Middle East volatility, religious extremists, and terrorist threats, the mere mention of Islam and Muslims too often provokes misunderstanding and even rancor. Often overlooked are the important links between the Qur'an and the Bible. Also ignored are the significant historical overlap between Islamic interpretation of history with those of Christianity and Judaism. Islam is too often confusing and even opaque to those unfamiliar with it. Truly a must-have reference for our changing and trying times. The Handy Islam Answer Book is clearly and eloquently written by John Renard, Ph.D., a scholar of Islam with more than 40 years of research and teaching experience. This user-friendly guide answers nearly 800 questions and offers fun facts that cover Islamic history, religious practices, and Muslim cultural perspectives, including: When did Islam begin? Why is Mecca a holy city for Muslims? Do Muslims worship Muhammad? What was the fate of Medieval Christian pilgrims to the Holy Land? What do Muslims mean by the term Allah? What does the crescent moon and star symbol

mean to Muslims What is the Muslim call to prayer Is it similar to church bells Do Muslims believe that God tests people Does Muhammad play a role in Islamic spirituality in a manner similar to Jesus role in Christianity Is jihad a legal concept for Muslims Is it true that Muhammad both preached and engaged in military campaigns Do Muslims Christians and Jews worship the same God Why do Jews Christians and Muslims all claim parts of Israel Palestine as Holy Land Why do some people such as the Taliban not want girls to get an education Does Islam require wearing face veils Is there any similarity between Muslim and Christian art Muslims are diverse and they have a vast spectrum of views about Islam and The Handy Islam Answer Book is a resource for reliable information about Islam and Muslims This helpful books also provides a historic timeline a glossary of commonly used terms a genealogy from Adam to Muhammad and beyond a calendar of major observances an extensive index and a bibliography help further exploration of one of the world s great religions

Encyclopaedia of Quranic Studies Maulana Mohammad Razi Khan Afridi,2006 *No Islam but Islam* Farzana Moon,2015-01-12 This book weaves its way into the fabric of Islam torn into shreds by the birth of many sects The great twins Shia and Sunni Islam Ismaeli Islam Ahmadiyya Islam Wahhabi Islam and Taliban Islam to name a just few dab the fabric of Islam in patches of color to define each sect with the color of blood the largest patch This book rejects the common idea that the rise of terrorism in this new millennium means that Islam is retracing its steps toward older times It poses the challenge to Muslims that if they deigned to explore the purity of Islam exhibited during the life of Prophet Muhammad there would be no hatred bigotry or intolerance The curtains of ignorance would be ripped apart and rivers of malice and enmity would be replaced by the waters of Divine Grace in love compassion and understanding No Islam but Islam is written in response to a myriad of lies and distortions practiced by suicide bombers and extremists It shows that the present state of violence injustice and the oppression of women has nothing to do with Islam but rather with man made laws *Islam ,*
