Replicante, 2006 *Materials, Practices, and Politics of Shine in Modern Art and Popular Culture* Antje Krause-Wahl, Petra Löffler, Anne Söll, 2021-06-03 Shine allures and awakens desire As a phenomenon of perception shiny things and materials fascinate and tantalize They are a formative element of material culture promising luxury social distinction and the hope of limitless experience and excess Since the early twentieth century the mass production dissemination and popularization of synthetic materials that produce heretofore unknown effects of shine have increased At the same time shine is subjectified as glamor and made into a token of performative self empowerment The volume illuminates genealogical as well as systematic relationships between material phenomena of shine and cultural philosophical concepts of appearance illusion distraction and glare in bringing together

renowned scholars from various disciplines The Oxford Handbook of Food Fermentations Charles W. Bamforth, Robert Edwin Ward, 2014 Fermentation as a chemical and biological process is everywhere Countless societies throughout history have used it to form a vast array of foods and drinks many of which were integral and essential to those cultures it could be argued that the production of beer and bread formed the basis of many agriculture based civilizations Today nearly every person on the planet consumes fermented products from beer and wine to bread and dairy products to certain types of meat and fish Fermentation is a nearly ubiquitous process in today's food science and an aspect of chemistry truly worth understanding more fully In The Oxford Handbook of Food Fermentations Charles W Bamforth and Robert E Ward have collected and edited contributions from many of the world's experts on food fermentation each focused on a different fermentation product The volume contains authoritative accounts on fermented beverages distilled beverages and a diverse set of foods as well as chapters on relevant biotechnology Each chapter embraces the nature of the product its production and its final composition The text also touches on the raw materials and processes involved in producing packaged foodstuff and the likely future trends in each area In the conclusion Bamforth and Ward present a comparison between the various products and the diverse technologies employed to produce them Fermentation is a multifaceted process that affects a wide variety of products we consume and The Oxford Handbook of Food Fermentations is the definitive resource that captures the science behind fermentation as well as its diverse applications **The Publishers Weekly** ,2005 **L'Espresso** ,2005
