The Rabbit in the Fields Jennifer Coldrey, 1986-01-01 Text and illustrations depict rabbits feeding breeding and defending themselves in their natural habitats

Fields of Sense Markus Gabriel, 2015-01-14 It is still a widespread assumption that metaphysics and ontology deal with roughly the same questions They are supposed to be concerned with the fundamental nature of reality and to give an account of the meaning of existence or being in line with the broadest possible metaphysical assumptions Against this Markus Gabriel proposes a radical form of ontological pluralism that divorces ontology from metaphysics understood as the most fundamental theory of absolutely everything the world He argues that the concept of existence is incompatible with the existence of the world and therefore proposes his innovative no world view In the context of recent debates surrounding new realism and speculative realism Gabriel also develops the outlines of a realist epistemological pluralism His idea here is that there are different forms of knowledge that correspond to the plurality of fields of sense that must be acknowledged in order to avoid the trap of metaphysics
