Race and Ethnicity in Comparative Perspective Georgia Anne Persons, 2017 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world s population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in Race and Ethnicity in Comparative Perspective lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity nationalism identity and ideology The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America s changing problem of race Race and Ethnicity in Comparative Perspective is a timely thought provoking volume that will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists Provided by publisher *Race & Ethnicity in Comparative Perspective - National Political Science Review* , Printbegr nsninger Der kan printes kapitelvis **Race and Racism** Pierre L. E. Gracia, 2018-07-05 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic

identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts

**The Ethnic Phenomenon** Pierre Van Den Berghe, 1987-08-19 Van den Berghe contends that intergroup relations are reducible to individuals competing for scarce resources While social classes are grouped according to common material interests ethnic groups are organized by real or punitive common descent ultimately on the basis of common interests The author argues that ethnic nepotism is at its very foundation biological This new approach is expanded further taking into account how ethnicity is responsive to a wide spectrum of environmental factors He analytically relates his own ideological biases to the substance of his work What results is an intensely personal book of monumental scope and admirable intellectual honesty **Stanford Bulletin**, 2004 [Diasporas, Weddings and the Trajectories of Ethnicity](#)
