Race And Class The Dialectics Of Justice:

The Dialectics of Global Justice Bryant William Sculos,2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i e cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment

Black Women and The Criminal Justice System Biko

Agozino,2018-12-14 First published in 1997 this book identifies the problems that face black women in the criminal justice system as the result of the articulation of unequal and oppressive class race and gender relations the research aims to be aware of all three rather than prioritising isolating or reducing one or two of these relations The focus of this research primarily on black women is based on the belief that they are marginalised in both society and criminological research Black women are poorly represented in education employment the professions commerce industry and politics while in prison their presence is highly disproportionate to their wider numbers in society The author examines the problems facing black women and compares these with those facing black men and white women to demonstrate the articulation of social relations He addresses the structural positions of black women in society their social relations and the nature of the institutional practices of the criminal justice system

Identity, Diversity and Teaching for Social Justice Juliet Perumal,2007 In recent times educational reformers have proposed ways of using education to reduce inequality overcome discriminatory values and attitudes and alleviate social problems An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal cultural and political implications of language teaching Awareness of these factors activate the need to gain deeper insight into the personal and professional nuances of teachers lives The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social ideological cultural and geographical backgrounds Who teaches what to whom why and how affects curricular decisions which can thus become fraught with political allegiances in this way the non neutrality of language pedagogy is confirmed Drawing from a suite of data sources the book explores the following questions Do teachers autobiographical experiences shape their professional identities Does subscription to counter hegemonic ideologies impact teachers personal and professional positionality and authority What contributions can feminist theorising make to language teaching in socially diverse classrooms Through an exploration of these questions the book gestures towards an imperative to re think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas

Postmodern Racial Dialectics Richard A. Jones,2015-12-07 Postmodern Racial Dialectics is a collection of ten essays on African American philosophy Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U S to conceptions of Black utopianism to the nature of postmodern revolutions these essays are beyond the bounds of traditional racial discourse The essays are

dialectical in the sense that they are conversations between personal histories between ideologies and between changing ways that the races talk to one another The book is postmodern in that it is beyond modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line

King and the Other America Sylvie Laurent, 2019-01-08 Shortly before his assassination Martin Luther King Jr called for a radical redistribution of economic and political power to transform the whole of society In 1967 he envisioned and designed the Poor People's Campaign an interracial effort that was carried out after his death This campaign brought together impoverished Americans of all races to demand better wages better jobs better homes and better education King and the Other America explores this overlooked and obscured episode of the late civil rights movement deepening our understanding of King's commitment to social justice and also of the long term trajectory of the civil rights movement Digging into earlier radical arguments about economic inequality across America which King drew on throughout his entire political and religious life Sylvie Laurent argues that the Poor People's Campaign was the logical culmination of King's influences and ideas which have had lasting impact on young activists and the public Fifty years later growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign This book draws the connections between King's perceptive thoughts on substantive justice and the ongoing quest for equality for all

Stephan Russo Book Prize for Social Justice The most comprehensive critique of probation and parole and a provocative and compelling argument for abolishing both from the former Probation Commissioner of New York City Imagine if probation didn't exist And I came to you with 80 million and 30 000 people the courts considered troubled and troubling And you could do anything you wanted with that money to make New York City safer and help people turn their lives around Would you go out and hire a thousand civil service protected bureaucrats to supervise people as they piss in a cup once a week and to tell them to go forth and sin no more Vincent Schiraldi's Job Interview with NYC Mayor Mike Bloomberg We've heard a lot in recent years about the nearly 2.1 million people incarcerated in American prisons and jails But what about the approximately 4 million more who are on probation and parole monitored by the state at great expense and at risk of being sent to prison at the whim of a probation or parole officer for the least imaginable infraction Vincent Schiraldi was New York City probation commissioner under Mayor Bloomberg supervising a system charged with monitoring 30 000 people on a daily basis In Mass Supervision he combines firsthand experience with deep research on the inadequately explored practices of probation and parole to illustrate how these forms of state supervision have strayed from their original goal of providing constructive and rehabilitative alternatives to prison They have become instead Schiraldi argues a recidivism trap for people trying to lead productive lives in the wake of a criminal conviction Schiraldi offers the first full and up to date account of these two key aspects of our criminal justice system showing that these practices increase incarceration have little impact on crime rates and needlessly disrupt countless lives Ultimately he argues that they should be dramatically downsized or even abolished completely
