**Racists Beware** George J. Sefa Dei, 2008-01-01 With admirable clarity and directness, George Dei exposes the tendency towards the racial re-feudalization of the contemporary public sphere in Canada and by association other post-industrial societies. He points to the enormous opportunity costs imposed on racial minorities in the new millennium as a consequence. In *RACISTS BEWARE: UNCOVERING RACIAL POLITICS IN THE POSTMODERN SOCIETY*, Dei identifies and subjects to close scrutiny the new race-bending logics of what he calls postmodern societies in which the dwellers of the suburbs and members of the itinerant white professional middle class, the great beneficiaries of late capitalism and neoliberalization of the economy, now have become the new social plaintiff, turning the complaint of racial inequality and discrimination on the heads of those most oppressed. If Gayatri Spivak asks, "Can the subaltern speak?" then Dei brilliantly poses the question: "When will Anglo-dominant groups, even critical ones, ever listen?" This book is likely to provoke and influence discussion on racial antagonism for a long, long time to come.

**Racialization** Karim Murji, John Solomos, 2005 Racialization has become one of the central concepts in the study of race and racism. It is widely used in both theoretical and empirical studies of racial situations. There has been a proliferation of texts that use this notion in quite diverse ways. It is used broadly to refer to ways of thinking about race as well as to institutional processes that give expression to forms of ethno-racial categorization. An important issue in the work of writers such as Robert Miles, for example, concerns the ways in which the construction of race is shaped historically and how the usage of that idea forms a basis for exclusionary practices. The concept therefore refers both to cultural or political processes or situations where race is invoked as an explanation as well as to specific ideological practices in which race is deployed. It is evident, however, that despite the increasing popularity of the concept of racialization, there has been relatively little critical analysis exploring its theoretical and empirical usages. It is with this underlying concern in mind that *Racialization: Studies in Theory and Practice* brings together leading international scholars in the field of race and ethnicity in order to explore both the utility of the concept and its limitations. *Routledge International Handbook of Contemporary Social and Political Theory* Gerard

Delanty, Stephen P. Turner, 2021-09-20 The triangular relationship between the social the political and the cultural has opened up social and political theory to new challenges The social can no longer be reduced to the category of society and the political extends beyond the traditional concerns of the nature of the state and political authority This Handbook will address a range of issues that have recently emerged from the disciplines of social and political theory focusing on key themes as opposed to schools of thought or major theorists It is divided into three sections which address the most influential theoretical traditions that have emerged from the legacy of the twentieth century the most important new and emerging frameworks of analysis today the major theoretical problems in recent social and political theory The Second edition is an enlarged revised and updated version of the first edition which was published in 2011 and comprised 42 chapters The new edition consists of 50 chapters of which seventeen are entirely new chapters covering topics that have become increasingly prominent in social and political theory in recent years such as populism the new materialism postcolonialism Deleuzean theory post humanism post capitalism as well as older topics that were not covered in the first edition such as Arendt the gift critical realism anarchism All chapters retained from the first edition have been thoroughly revised and updated The Routledge International Handbook of Contemporary Social and Political Theory encompasses the most up to date developments in contemporary social and political theory and as such is an essential research tool for both undergraduate and postgraduate students as well as researchers working in the fields of political theory social and political philosophy contemporary social theory and cultural theory
