## **Rd Laing A Personal View:**

*R.D. Laing* Bob Mullan, 1999 This biography pieces together elements of Laing's life re-evaluating this remarkable man's thought. In particular it addresses his ambivalence towards Freud, his unreconstructed Marxism, his love of Buddha but his reconstructed Buddhism, his adoration of Nietzsche and Sartre, the only two contemporaries he believed superior to himself, and the ideas he developed through his own experience of working with himself and his patients. His behaviour could range from peacefulness and enlightenment to violence. But he could always be trusted to be none but himself: tender, compassionate, cruel, vindictive, sober or drunk, muddled-headed and or profoundly perceptive and original, tearful and morose, joyous and contented.

**Cézanne's Gravity** Carol Armstrong, 2018-11-13 A transformative study freeing the artist from outdated art historical narratives and revealing his work as newly strange again. Cézanne's Gravity is an ambitious reassessment of the paintings of Paul Cézanne 1839-1906. Whereas previous studies have often looked at the artist's work for its influence on his successors and on the development of abstraction, Carol Armstrong untethers it from this timeline, examining Cézanne's painting as a phenomenological and intellectual endeavor. Armstrong uses an interdisciplinary approach to analyze Cézanne's work, pairing the painter with artists and thinkers who came after him, including Roger Fry, Virginia Woolf, Albert Einstein, Maurice Merleau-Ponty, Rainer Maria Rilke, R.D. Laing, and Helen Frankenthaler. Through these pairings, Armstrong addresses diverse subjects that illuminate Cézanne's painting from the nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind. Cézanne's Gravity attends to both the physicality of the artist's works and the weight they bear on the history of art. This distinctive study not only invites its readers to view Cézanne's paintings with fresh eyes but also offers a new methodology for art historical inquiry outside linear narratives, one truly fitting for our time.

**Antipsychiatry** Thomas Szasz, 2009-09-08 More than fifty years ago, Thomas Szasz showed that the concept of mental illness, a disease of the mind, is an oxymoron, a metaphor, a myth. Disease in the medical sense affects only the body. He also demonstrated that civil commitment and the insanity defense, the paradigmatic practices of psychiatry, are incompatible with the political values of personal responsibility and individual liberty. The psychiatric establishment's rejection of Szasz's critique posed no danger to his work; its defense of coercions and excuses as therapy supported his argument regarding the metaphorical nature of mental illness and the transparent immorality of brutal psychiatric control masquerading as humane medical care. In the late 1960s, the launching of the so-called antipsychiatry movement vitiated Szasz's effort to present a precisely formulated conceptual and political critique of the medical identity of psychiatry. Led by the Scottish psychiatrist R.D. Laing, the antipsychiatrists used the term to attract attention to themselves and to deflect attention from what they did, which included coercions and excuses based on psychiatric principles and power. For this reason, Szasz rejected and continues to reject psychiatry and antipsychiatry with equal vigor. Subsuming his work under the rubric of antipsychiatry betrays and negates it just as surely and effectively as

subsuming it under the rubric of psychiatry In Antipsychiatry Quackery Squared Szasz powerfully argues that his writings belong to neither psychiatry nor antipsychiatry They stem from conceptual analysis social political criticism and common sense

Should a court order medical treatment for a severely disabled newborn in the face of the parents refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and

disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference Minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system s ways of handling them Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it Education for handicapped children conflicts between job and family responsibilities bilingual education Native American land claims these are among the concrete problems she discusses from a fresh angle of vision Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way In contrast she regards the self as being realized through connection capable of shaping an identity only in relationship to other people She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection The meanings of many differences can change when people locate and revise their relationships to difference she asserts The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access Her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law By illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference
