Bobbi Y. Cumpston, 2024-08-09 *Leadership Points of Connection* developed from the realization that leadership is about making connections in all walks of life. But connections are not just for leaders. Points of connection are specific interactions with others that bring about illumination, creativity, innovation, and discussions that help relationships grow and organizations expand. Connections can unite people for a common purpose that impacts an organization or community for good. Meaningful connections can be intentional business meetings or spontaneous moments that leave a long-lasting impact. The author defines each type of connection along with leadership principles in each chapter through authenticity, transformation, and service. Real-life experience and practical examples demonstrate how points of connection can make a difference to individuals, organizations, and communities. Each chapter ends with thought-provoking questions that encourage the reader to know who they are, what they have to offer others, and how to make a positive impact through a point of connection. The author hopes that the reader will learn that points of connection go beyond "What's in it for me" to the encouragement of others through authentic, transformational connections that positively impact people and communities.

Dilemmas of Leadership Tudor Rickards, 2015-06-17 Leadership, the practice of focusing and motivating a group or organization to achieve its aims, is a much-discussed but often misunderstood concept. This comprehensive textbook introduces the subject for Masters-level students. Readers are invited to make a series of metaphorical journeys of discovery, thematically organized around fundamental dilemmas within the field of leadership studies. Building on the success of previous editions, the text uses a simple map-based approach to consider dilemmas such as: Is a leader born or made? How are tensions between ethical dilemmas and economic self-interest resolved? How does a leader's desire for control balance with the need to empower members of the organization? This third edition contains a brand-new chapter on leadership in sport, an enhanced chapter on creativity, and more international content. Also new to this edition is a companion website containing PowerPoint slides, revision quizzes, and a tutor's guide. This text will be essential reading for Masters and MBA students on leadership courses and will also be illuminating for managers pursuing leadership development.
