

A scenic landscape featuring a calm lake in the foreground, surrounded by dense evergreen forests. In the background, majestic mountains rise under a sky filled with dramatic, golden-hued clouds, suggesting a sunrise or sunset. The overall atmosphere is serene and inspiring.

Your genius simply makes you a truly joyous human being. That is your higher purpose – to be radiant for no reason other than being alive.

Reason And Genius:

The Spectator ,1867 **After Taste. Critique of insufficient reason** Slavko Kacunko,2021-06-02 After Taste is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features One concept figurative Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and actual are presented in three volumes As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time Moreover After Taste is intended for anyone who hopes to make a further contribution to the subject Since its appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making The critical role of Taste judges ratings and rankings in the feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today However Taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic North of the academic compass After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts Three intertwined research hypotheses form the guiding goal of an overall study of the agencies of Taste its institutionalizations and expert cultures The 1 first part provides a missing systematic perspective on the concept of Taste as a key factor for understanding the human faculties value theories and practices of valuating The 2 second part traces the events at the peak of Taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of Taste for the production reception and distribution of culture The 3 third part reconstructs the major moments in which the contested concept of Taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world **The Equilibration of Human Aptitudes and Powers of Adaptation** Cyrenus Osborne Ward,1895 **The Word** ,1913

Parla,2021-11-22 **Herder's Hermeneutics** Kristin Gjesdal,2017-07-25 Through a detailed study of Herder's Enlightenment thought especially his philosophy of literature Kristin Gjesdal offers a new and sometimes provocative reading of the historical origins and contemporary challenges of modern hermeneutics She shows that hermeneutic philosophy grew out of a historical anthropological and poetic discourse in the mid eighteenth century and argues that as such it represents a rich stimulating and relevant engagement with the potentials and limits of human meaning and understanding Gjesdal's study broadens our conception of hermeneutic philosophy the issues it raises and the answers it offers and underlines the importance of Herder's contribution to the development of this discipline Her book will be highly valuable for students and scholars of eighteenth century thought especially those working in the fields of hermeneutics aesthetics and European philosophy

Unbinding Isaac Aaron Koller,2020-07-01 Unbinding Isaac takes readers on a trek of discovery for our times into the binding of Isaac story Nineteenth century Danish philosopher Søren Kierkegaard viewed the story as teaching suspension of ethics for the sake of faith and subsequent Jewish thinkers developed this idea as a cornerstone of their religious worldview Aaron Koller examines and critiques Kierkegaard's perspective and later incarnations of it on textual religious and ethical grounds He also explores the current of criticism of Abraham in Jewish thought from ancient poems and midrashim to contemporary Israel narratives as well as Jewish responses

to the Akedah over the generations Finally bringing together these multiple strands of thought along with modern knowledge of human sacrifice in the Phoenician world Koller offers an original reading of the Akedah The biblical God would like to want child sacrifice because it is in fact a remarkable display of devotion but more than that he does not want child sacrifice because it would violate the child s autonomy Thus the high point in the drama is not the binding of Isaac but the moment when Abraham is told to release him The Torah does not allow child sacrifice though by contrast some of Israel s neighbors viewed it as a religiously inspiring act The binding of Isaac teaches us that an authentically religious act cannot be done through the harm of another human being

Writing after War John Limon,1994-07-07 In Writing After War John Limon develops a theory of the relationship of war in general to literature in general in order to make sense of American literary history in particular Applying the work of war theorists Carl von Clausewitz and Elaine Scarry John Limon argues that The Iliad inaugurates Western literature on the failure of war to be duel like to have a beautiful form War s failure is literature s justification American literary history is demarcated by wars as if literary epochs like the history of literature itself required bloodshed to commence But in chapters on periods of literary history from realism generally taken to be a product of the Civil War through modernism usually assumed to be a prediction or result of the Great War up to postmodernism which followed World War II and spanned Vietnam Limon argues that despite the looming presence of war in American history the techniques that define these periods are essentially ways of not writing war From James and Twain through Fitzgerald Faulkner and even Hemingway to Pynchon our national literary history is not hopelessly masculinist Limon argues Instead it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston Kingston brings the discussion full circle The Woman Warrior like The Iliad appears to condemn the fall from duel to war that is literature s endless opening The Psychology of Reasoning Eugenio Rignano,1923 **The Inheritance of Acquired Characteristics** Paul Kammerer,1924 **The Forum** Loretta Sutton Metcalf,Walter Hines Page,Joseph Mayer Rice,Frederic Taber Cooper,Arthur Hooley,George Henry Payne,Henry Goddard Leach,1923 Current political social scientific education and literary news written about by many famous authors and reform movements
