Rebuilding Somalia War-torn Societies Project,2001 Includes statistics *Somalia - the Untold Story* Judith Gardner,Judy El Bushra,2004-01-20 Somalia came to the world s attention in 1992 when television and newspapers began to report on the terrifyingly violent war and the famine that resulted Half a million Somalis died that year and over a million fled the country Cameras followed US troops as they landed on the beaches at Mogadishu to lead what became an ill fated UN intervention to end hunger and restore peace In this book Somali women write and talk about the war their experiences and the unacceptable choices they often faced They explain clearly in their own words the changes challenges and sometimes the opportunities that war brought and how they coped with them Key themes include the slaughter and loss of men who were the prime target for killings rape and sexual violence as a weapon of war changing roles in the family and within the pastoralist economy women mobilising for peace and leading social recovery in a war torn society This book is not only an important record of women s experience of war but also provides researchers and students of gender and conflict with rare first hand accounts highlighting the impact of war on gender relations and women s struggle for equal political rights in a situation of state collapse **State Collapse and Post-conflict Development in Africa** Abdullah A. Mohamoud,2006 Mohamoud s work considers the underlying causes for the breakdown of the state across both time and space Time is considered across the triple history the pre colonial colonial and post colonial processes Space is used in the sense of taking the whole of Somalia as a unit of analysis This approach enables the discovery of different structural crises over a period of time and examines these cumulative effects on the current upheavals in Somalia Among the approaches State Collapse and Post Conflict Development in Africa covers the constraints in the harsh material environment the subsistence pastoral mode of existence the colonial intervention and the subsequent division of the land into five parts Cold War geopolitics decades of armed struggles and the post colonial crisis of governance Dr Abdulla Awil Mohamoud runs SAHAN an academic research and consultancy agency which conducts policy oriented research and fact finding missions abroad mainly in Africa undertakes evaluation and monitoring activities provides training and offers advisory services on integration and multi cultural issues He holds an MA degree from Jawaharlal Nehru University New Delhi and earned his PhD at the University of Amsterdam Mohamoud has served regularly as an election observer in UN EU Council of Europe and OSCE missions to conflict and war torn societies to East Timor Kosovo Nigeria Serbia and Zimbabwe *Rebuilding Somaliland War-torn Societies Project*,WSP Transition Programme,2005 **Piracy in Somalia** Awet Tewelde Weldemichael,2019-01-24 Piracy in Somalia sheds light on an often misunderstood world oversimplified and demonized in the media and largely decontextualized in scholarly and policy works It examines the root causes of piracy in Somalia its impact on coastal communities local views about it and the measures taken against it Drawing on six years worth of extensive fieldwork Awet Tewelde Weldemichael amplifies the voices of local communities who have suffered under the heavy weight of illegal fishing

piracy and counter piracy and makes their struggles comprehensible on their own terms He also exposes complex webs of crimes within crimes of double dealing pirates fraudulent negotiators duplicitous intermediaries and treacherous foreign illegal fishers and their local partners In so doing this book will help inform regional and global counter piracy endeavors avoid possible reversals in the gains so far made against piracy and identify the gains that need to be made against its root causes Somalia Abdulkadir O. Farah,2007-03-31 Since the final collapse of Somalia's repressive regime in 1991 Somalia

has presented the world not only with the most profound case of state collapse witnessed in modern times but also with one of the most intriguing cases of political fragmentation armed conflicts lawlessness and statelessness Inevitably the last 20 years of statelessness and chaos has left the Somali economy destitute and made Somalia to be ranked among the five poorest countries in the world Contributors to this volume examine efforts at reconstituting the failed Somali state and the role of the Somali Diaspora and civil society groups in the processes They also analyse how the Somali Diaspora and civil society in Somalia engage and cooperate to further processes of state reconstitution in Somalia as well as help the Somali Diaspora adjust in their host nations *Somalia Redux?* Matt Bryden,2013-09-10 The Somali Federal Government SFG established in August 2012 has been widely welcomed as Somalia's first post transition government receiving breathlessly upbeat media coverage and plaudits from the international community Matt Bryden argues in this report that these buoyant judgments are based on highly selective appraisals of the situation The SFG remains frail and embattled Furthermore there are major question marks over its inclusiveness and its relationships with other Somali authorities and factions Less than a year into the SFG's mandate hope and optimism are steadily giving way to polarization acrimony and fears of renewed violence

Omar Abdulle Alasow,2010-05-17 While all armed conflicts are marked by violations of international humanitarian law non international armed conflicts appear to be characterised by even more serious violations of international humanitarian law on a colossal scale This study is aimed at understanding the possible factors that may cause parties to non international armed conflicts to engage in violations despite the fact that not only international humanitarian law but also other bodies of rules e g legal and moral impose restrictions and obligations similar to international humanitarian law Somalia which for over two decades has been experiencing internal armed conflicts marked by widespread violations is a typical case This study addresses the root causes of the internal armed conflict in Somalia and identifies factors which contributed to the collapse of the Somali state and the reasons for its continuing conflict It also examines the characteristics of the conflict In order to examine the extent to which applicable rules have been respected or not the study examines both international rules applicable in non international armed conflicts and specific Somali rules of warfare After demonstrating evidence of violations and analysing it this study seeks to identify possible direct and indirect causes of these violations In addition it also seeks to identify whether such possible causes contribute to violations that are unique to the situation in Somalia or if not whether there may be lessons to be learnt for other situations similar to that in Somalia **Environmental Politics in the Middle East** Harry Verhoeven,2018 Offers a critical and realistic reassessment of the threats posed to the environment in the Middle East and what can be done about them

Lewis, 2017-09-29 Social anthropology is in the classic definition dedicated to the study of distant civilizations in their traditional and contemporary forms But there is a larger aspiration the comparative study of all human societies in the light of those challengingly unfamiliar beliefs and customs that expose our own ethnocentric limitations and put us in our place within the wider gamut of the world's civilizations Thematically guided by social setting and cultural expression of identity Social and Cultural Anthropology in Perspective is a dynamic and highly acclaimed introduction to the field of social anthropology which also examines its links with cultural anthropology A challenging new introduction critically surveys the latest trends pointing to weaknesses as well as strengths Presented in a clear lively and entertaining fashion this volume offers a comprehensive and up to date guide to social anthropology for use by teachers and students Skillfully weaving together theory and ethnographic data author Ioan M Lewis advocates an eclectic approach to anthropology He combines the strengths of British structural functionalism with the leading ideas of Marx Freud and Levi Strauss while utilizing the methods of historians political scientists and psychologists One of Lewis' particular concerns is to reveal how insights from traditional cultures illuminate what we take for granted in contemporary industrial and post industrial society He also shows how in the pluralist world in which we live those who study other cultures ultimately learn about themselves Social anthropology is thus shown to be as relevant today as it has been in the past Caring Fathers in the Global Context Petteri Eerola, Katherine Twamley, Henna Pirskanen, Pedro Romero-Balsas, 2025-07-24 Despite growing recognition of fathers involvement in family life dominant narratives still
