## Recent Studies In Atomic And Molecular Physics:

*Recent Studies in Atomic and Molecular Processes* Arthur E. Kingston, 2012-12-06 Sir David Bates celebrated his seventieth birthday on the 18th November 1986 To mark this event a conference was held in the David Bates building at The Queen's University of Belfast on the 17th and 18th November 1986 At this conference ex students and colleagues of Sir David who are acknowledged world experts in their field of research gave in depth reviews of a particular area of atomic and molecular physics This book on the conference presents a unique account of recent studies in atomic and molecular processes in a wide range of research fields This volume is dedicated to Sir David by his friends as a token of their affection and respect It is hoped that it will provide a useful summary of current research in atomic and molecular physics and that it will also show the great contribution which Sir David made to atomic and molecular physics This conference was supported by the USAF European Office of Aerospace Research and Development who we wish to thank for their generous support

It was the 50s and life was simple until September 25 1954 That was the night that would be etched in the memory of the citizens of Stanfield Massachusetts The Chief of Police described the brutal savagery of the double homicide as the most atrocious crime in the history of the city A fourteen year old girl and the four year old boy in her care were murdered at the hands of a deranged depraved killer A Thread of Evidence places the reader at the scene of the crime an eye witness to the senseless stabbing of two innocent children With a piece of crochet thread as their only clue the entire police department lead by detectives Steven Logan and Raymond Gage scour the city in search of a maniacal savage When all tips and leads have been exhausted they review all evidence They come back to the thread The only real evidence With tenacity and perseverance of Logan and Gage the killer is apprehended The reader experiences the twists and turns of the investigation and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence A Thread of Evidence has been written as fiction but inspired by an actual event Fifty years later it remains etched in the minds of all who had lived in the area The author has researched court records newspapers interviewed neighbors police and has drawn on personal recollections of the crime The story has been recounted over and over and to this day it continues to be discussed A Thread of Evidence is a compelling account of

superb detective work and unprecedented dedication of an entire police department
