A. Akindele,2003 **Central Asia and Regional Security** Mr P L Dash,Ms Anita Sengupta,Mr Murat M Bakhadirov,2014-02-15 While security concerns have assumed salience across the globe Afghanistan s proximity to Central Asia has meant that security or perceptions of insecurity dominate the strategic discourse in the region Issues that stand out include the challenges that the Central Asian states will face in terms of stability ethnic tensions radicalization of youth destabilization of commodity flows and energy security and the impact that these could have on Central Asian society However security cannot just be defined in terms of security at the borders It needs to be defined in cosmopolitan terms through an array of issues like movements across borders radicalism within states the sharing of water and various multilateral attempts at combating insecurity This volume is an attempt to focus on some of these issues that reflect on perceptions of security principally from Indian and Uzbek positions It examines shifts over the last two decades from debates on the geopolitical importance of the region from a great game perspective to the salience of new engagements within the international arena **Region-building** Ludger Kühnhardt,2010-07-01 After two centuries of nation building the world has entered an era of region building in search of political stability cultural cohesion and socio economic development Nations involved in the regional structures and integration schemes that are emerging in most regions of the world are deepening their ambitions with Europe s integration experience often used as an experimental template or theoretical model Volume I provides a political analytical framework for recognizing the central role of the European Union not only as a conceptual model but also a normative engine in the global proliferation of regional integration It also gives a comprehensive treatment of the focus motives and objectives of non European integration efforts Volume II offers a unique collection of documents that give the best available overview of the legal and political evolution of region building based on official documents and stated objectives of the relevant regional groupings across all continents Together these volumes are important contributions for understanding the evolution of global affairs in an age when power shifts provide new challenges and opportunities for transatlantic partners and the world community *Living Together After Ethnic Killing* Roy Licklider,Mia Bloom,2013-10-23 This volume attempts to critically analyze Chaim Kaufman s ideas from various methodological perspectives with the view of further understanding how stable

states may arise after violent ethnic conflict and to generate important debate in the area After the Cold War the West became optimistic of their ability to intervene effectively in instances of humanitarian disasters and civil war Unfortunately in the light of Bosnia Somalia and Rwanda questions of the appropriate course of action in situations of large scale violence became hotly contested A wave of analysis considered the traditional approach of third parties attempting to ensure that the nation was built on the basis of a ruling power share between the opposing sides of the conflict to be overwhelmingly problematic and perhaps impossible Within this movement Kaufman wrote a series of articles advocating separation of warring sides in order to provide stability in situations of large scale violence His theorem provoked extreme responses and polarized opinion contradicting the established position of promoting power sharing democracy and open economies to solve ethnic conflict and had policy implications for the entire international community This book was previously published as a special issue of Security Studies *Routledge Handbook of African Security* James J.
