invitation for us to test the limits As you grow in your Reiki experience you ll find that there are many interesting Reiki books to read The exact history and spiritual practice of the originator of the Usui method and how he taught was written jointly by Mikao Usui and Christine Grimm It is a book serious students might find of interest There are also others just as fascinating based on each authors views and personal journeys They might cover how you feel when first using this energy or how to work with animals or a greater focus on distance healings Each one has a different twist containing excellent information for targeted levels and areas of interest Within the pages of this book we share with you the conventional Reiki training we were given and also tools to expand your consciousness and go beyond Aloha e komo mai Welcome and come in Malana Ashlie
