Japan and Protection Syed Javed Maswood,2018-10-26 In the 1980s the extent of Japanese export penetration into other Western economies particularly the USA became a matter of international concern There were demands for Japan to reciprocate on imports for the Japanese market to be opened up and by some people for sanctions or a trade war if the Japanese did not respond This book first published in 1989 examines the growth of protectionist sentiment and the Japanese response to it It examines in detail the debates within Japan and discusses the measures which the Japanese took including the voluntary export restraint measure in the motor sector It concludes that broadly the Japanese did indeed respond to world demands for their market to be opened up but that successful exporting to Japan depended equally on efforts by Western companies to service that market which they were slow to do **Regions in Recession and Resurgence** Michael

Chisholm,2015-03-27 The world economy has undergone rapid evolution in recent decades along with changes in the importance of industries and their organization and sharp changes in the fortunes of regions There are differences of opinion regarding the mainsprings of change and development and the role of governments in fostering national output In order to show the relevance of these changes to regional economies the book focuses on the different schools of economic thought from the neo classical through Keynesian to Marxist radical ideas and monetarist supply side thinking providing a brief description of their structure in non spatial terms The way these theories map into contrasting ideas regarding the mechanisms of regional economic growth is then explained The book concentrates on developed economies and explicitly seeks to confront theory with fact fact with theory Bringing together non spatial economic theory regional growth theory and relevant empirical data this book is intended for students in geography and regional economics but will also be of interest for those studying politics and government *Routledge Library Editions: Economic Geography* Various,2021-06-23 The books

Victorian society but also for considering the intersections between recreation and the politics of everyday life A social history of sport Canoe and Canvas is particularly concerned with how gender class and race shaped the social cultural and physical landscapes of the ACA encampments Although there was an ever expanding arena of opportunity for leisure and sport in the late nineteenth century as the example of the ACA makes clear not all were granted equal access Most of the members of the American Canoe Association and the majority of the campers at the annual encampments were white middle class men though white women were extended partial membership in 1882 and in 1883 they were permitted to camp on site Canoe and Canvas also reveals how Black Indigenous and working class people while obscured in the historical record were indispensable to the smooth functioning of these events through their labour *The Infrastructure of Play* Dennis R. policies in order to equip the United States with the institutional capacity to formulate industrial interventions guided by strategic vision and bipartisan participation by labor and management **State Government and Economic**
