Reinventing Khomeini The Struggle For Reform In Iran:

Reinventing Khomeini Daniel Brumberg, 2001-04-15 Reinventing Khomeini offers a new interpretation of the political battles that paved the way for reform in Iran Brumberg argues that these conflicts did not result from a sudden ideological shift nor did the election of President Mohammad Khatami in 1997 really defy the core principles of the Islamic Revolution To the contrary the struggle for a more democratic Iran can be traced to the revolution itself and to the contradictory agendas of the revolution's founding father Ayatollah Ruhollah Khomeini A complex figure Khomeini was a fervent champion of Islam but while he sought a Shi'ite vision of clerical rule under one Supreme Leader he also strove to mesh that vision with an implicitly Western view of mass participatory politics The intense magnetism and charisma of the ayatollah obscured this paradox But reformers in Iran today while rejecting his autocratic vision are reviving the constitutional notions of government that he considered and even casting themselves as the bearers of his legacy In Reinventing Khomeini Brumberg proves that the ayatollah is as much the author of modern Iran as he is the symbol of its fundamentalist past *The Oxford Handbook of Islam and Politics* John L. Esposito, Emad El-Din Shahin, 2016 The Oxford Handbook of Islam and Politics with contributions from prominent scholars and specialists provides a comprehensive analysis of what we know and where we are in the study of political Islam **Key Islamic Political Thinkers** John L. Esposito, Emad El-Din Shahin, 2018-08-08 Islam has become a potent political force around the world since it reemerged in the late 1960s and 1970s as a religious political alternative to failed nationalist ideologies In countries throughout the world individuals and movements have attempted to reconstruct the political economic and social dimensions of their societies along Islamic lines taking different approaches to the sharia and to the questions of whether and how to establish an Islamic state Key Islamic Political Thinkers offers an examination of some of the leading intellectuals behind the resurgence of political Islam The essays in this volume cover a selection of thinkers that is representative of the main strands of contemporary Muslim political thought It starts with the forefathers of contemporary political Islam Hasan al Banna and Abu al Ala al Mawdudi analyzes the revolutionary ideas of Sayyid Qutb Ali Shari'ati and Ayatollah Khomeini and ends with the intellectuals of political Islam Hassan al Turabi Rashid al Ghannoushi Yusuf al Qaradawi Muhammad Khatami and Abdolkarim Soroush who exemplify the diversity and complexity of contemporary Muslim political discourse This volume provides a valuable guide to the most important intellectual architects of the Islamic revival **Iran and the Rise of Its Neoconservatives** Anoushiravan Ehteshami, Mahjoob Zweiri, 2007-06-29 This is the book that exposes the workings of Iranian politics today The authors penetrate the labyrinth of political relationships and family networks that is the Iranian ruling class and reveal the forces which brought hard line President Mahmoud Ahmadinejad to power They argue that the power base behind Ahmadinejad represents a kind of Iranian version of American neoconservatism The Iranian neocons like their Washington counterparts have come in from the cold Politicians and clerics exiled from influence under the reformist President Khatami have seized their chance to get back in to power and

to push an uncompromising foreign policy agenda Anoushiravan Ehteshami and Mahjoob Zweiri show how Ahmadinejad's surprise victory in the 2005 elections was just one facet of this group's strategy for regaining influence In an analysis which has major implications for Western policymakers the authors examine the group's agenda on issues like Iraq Israel and nuclear enrichment and assess how likely it is that they will be able to implement it Iran and the Rise of its Neoconservatives is the essential guide to the politics of this turbulent nation whose importance to world security has never been more keenly felt

the US in the birth of nuclear Iran and through the relationship between the programme's founder and the Shah of Iran himself the role that nuclear weapons have played in the programme since the beginning The author's unique access to the father of Iran's nuclear programme as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western officials at the centre of today's negotiations sheds new light on the uranium enrichment programme that lies at the heart of global concerns What emerges is a programme that has for a variety of reasons a deep resonance to Iran This is why it has persisted with it for over half a century in the face of such widespread opposition Drawing on years of research across the world David Patrikarakos has produced the most comprehensive examination of Iran's nuclear programme in all its forms to date
