Reinvention Of Primitive Society Transformation Of A Myth:

The Reinvention of Primitive Society Adam Kuper, 2017-02-17 Adam Kuper's iconoclastic intellectual history argues that the idea of primitive society is a western myth. The primitive is imagined as the opposite of the civilised. But this is a protean myth. As ideas about civilisation change, so the image of primitive society must be adjusted. By way of a fascinating account of classic texts in anthropology, ancient history and law, Kuper reveals how this myth underpinned academic research and inspired political programmes. Its ancestry is traced back to classical western beliefs about barbarians and savages and Kuper also tackles the latest version of the myth, the idea of a global identity of indigenous peoples. *The Reinvention of Primitive Society* is a key text in the history of anthropology and will interest anyone who has puzzled about the very idea of primitive society and so by implication about civilisation.

Primitive Thinking Nicola Gess, 2022-09-06 This book examines the discourse on primitive thinking in early twentieth century Germany. It explores texts from the social sciences, writings on art and language and most centrally literary works by Robert Musil, Walter Benjamin, Gottfried Benn and Robert M. L. R. focusing on three figurations of alterity prominent in European primitivism: indigenous cultures, children and the mentally ill.

Our Common Denominator Christoph Antweiler, 2016-04-01 Since the politicization of anthropology in the 1970s, most anthropologists have been reluctant to approach the topic of universals, that is phenomena that occur regularly in all known human societies. In this volume, Christoph Antweiler reasserts the importance of these cross-cultural commonalities for anthropological research and for life and co-existence beyond the academy. The question presented here is how anthropology can help us approach humanity in its entirety, understanding the world less as a globe with an emphasis on differences but as a planet from a vantage point open to commonalities.

T&T Clark Handbook of Anthropology and the Hebrew Bible Emanuel Pfoh, 2022-12-15 This handbook presents an overview of the main approaches from social and cultural anthropology to the Hebrew Bible. Since the late 19th century, biblical scholarship has addressed issues and themes related to biblical stories from a perspective which could now be considered socio-anthropological. It is however only since the 1960s that biblical scholars have started to produce readings and incorporate analytical models drawn directly from social anthropology to widen the interpretive scope of the social and historical data contained in the biblical sources. The handbook is arranged into two main thematic parts. Part 1 assesses the place of the Bible in social anthropology, examines the contribution of ethnoarchaeology to the recovery of the social world of Iron Age Palestine and offers insights from the anthropology of the Mediterranean for the interpretation of the biblical stories. Part 2 provides a series of case studies on anthropological themes arising in the Hebrew Bible. These include kinship and social organisation, death, cultural and collective memory and ritualism. Contributors also examine how the biblical stories reveal dynamics of power and authority, gender and honour and shame and how socio-anthropological approaches can reveal these narratives and deepen our knowledge of the human societies and cultural context of the texts. Bringing together the expertise of scholars of the Hebrew

Bible and Biblical Archaeology this ethnographic introduction prompts new questions into our understanding of anthropology and the Bible **Who are 'We'?** Liana Chua, Nayanika Mathur, 2018-06-13 Who do we anthropologists think we are And how do forms and notions of collective disciplinary identity shape the way we think write and do anthropology This volume explores how the anthropological we has been construed transformed and deployed across history and the global anthropological landscape Drawing together both reflections and ethnographic case studies it interrogates the critical yet poorly studied roles played by myriad anthropological we as in generating and influencing anthropological theory method and analysis In the process new spaces are opened for reimagining who we are and what we and indeed anthropology could become

Mediterranean Families in Antiquity Sabine R. Huebner, Geoffrey Nathan, 2016-08-17 This comprehensive study of families in the Mediterranean world spans the Bronze Age through Late Antiquity and looks at families and households in various ancient societies inhabiting the regions around the Mediterranean Sea in an attempt to break down artificial boundaries between academic disciplines

Human Nature and Social Life Jon Henrik Ziegler Remme, Kenneth Sillander, 2017-06-15 What distinguishes humans from nonhuman others And how do these distinctions shape human sociality and the ways that humans relate to their others Human Nature and Social Life brings together a collection of articles by prominent anthropologists to address these questions The articles show how the fundamentally social nature of humans results in an extension of sociality to virtual semiotic material and nonhuman spheres with humans therefore becoming part of extended socialities However as the book's contributors demonstrate human distinctness significantly bears upon these extended socialities and the manner in which humans partake in them Taking an ethnographic approach to its subject this book demonstrates the continued value of studying the specificities of the human condition and sets itself as a counterweight to current refutations of human exceptionalism

The Many Faces of Socioeconomic Change J. F. J.
