Citizenship, Community, and the Church of England Matthew Grimley,2004-06-17 This book traces the influence of Anglican writers on the political thought of inter war Britain and argues that religion continued to exert a powerful influence on political ideas and allegiances in the 1920s and 1930s It counters the prevailing assumption of historians that inter war political thought was primarily secular in content by showing how Anglicans like Archbishop William Temple made an active contribution to ideas of community and the welfare state a term which Temple himself invented Liberal Anglican ideas of citizenship community and the nation continued to be central to political thought and debate in the first half of the 20th century Grimley traces how Temple and his colleagues developed and changed their ideas on community and the state in response to events like the First World War the General Strike and the Great Depression For Temple and political philosophers like A D Lindsay and Ernest Barker the priority was to find a rhetoric of community which could unite the nation against class consciousness poverty and the threat of Hitler Their idea of a Christian national community was central to the articulation of ideas of Englishness in inter war Britain but this Anglican contribution has been almost completely overlooked in recent debate on twentieth century national identity Grimley also looks at rival Anglican political theories put forward by conservatives such as Bishop Hensley Henson and Ralph Inge dean of St Paul s Drawing extensively on Henson s private diaries it uncovers the debates which went on within the Church at the time of the General Strike and the 1927 8 Prayer Book crisis The book uncovers an important and neglected seam of popular political thought and offers a new evaluation of the religious political and cultural identity of Britain before the Second World War

God and Mrs Thatcher Eliza Filby, 2015-02-24 A woman demonised by the left and sanctified by the right there has always been a religious undercurrent to discussions of Margaret Thatcher However while her Methodist roots are well known the impact of her faith on her politics is often overlooked In an attempt to source the origins of Margaret Thatcher's conviction politics Eliza Filby explores how Thatcher's worldview was shaped and guided by the lessons of piety thrift and the Protestant work ethic learnt in Finkin Street Methodist Church Grantham from her lay preacher father In doing so she tells the story of how a Prime Minister steeped in the Nonconformist teachings of her childhood entered Downing Street determined to reinvigorate the nation with these religious values Filby concludes that this was ultimately a failed crusade In the end Thatcher created a country that was not more Christian but more secular and not more devout but entirely consumed by a new religion capitalism In upholding the sanctity of the individual Thatcherism inadvertently signalled the death of Christian Britain Drawing on previously unpublished archives interviews and memoirs Filby examines how the rise of Thatcher was echoed by the rebirth of the Christian right in Britain both of which were forcefully opposed by the Church of England Wide ranging and exhaustively researched *God and Mrs Thatcher* offers a truly original perspective on the source and substance of Margaret Thatcher's political values and the role that religion played in the politics of this tumultuous decade

The Spirit of Understanding Margaret J. Howell, 2013-07-29 The winning contestants on University Challenge could not identify lines from one of the best known

English poems Keats Ode to Autumn and seemed unconcerned about their ignorance This book provides an engaging retrospect for readers who have forgotten or who have never had much chance to study their own literature and history In presenting a kind of cross section of this abundant inheritance it supplies ample selective quotes and suggests an antidote to the strange sickness of modernity which seems to have forgotten that memory is the mother of the muses Literature one of the bulwarks of defence against unwarranted authority has been attacked distorted and eliminated from curricula because its traditional teachings handed on for generations oppose a determined modernist agenda The age demands conformity the poets are independent The traditional writings banished from shelves and the popular imagination educate the soul inculcating such qualities as fortitude one of the forgotten virtues Criticism of and from the media the self appointed commentators who make up the narratives of the day has been undertaken by analysts as diverse as Noam Chomsky and William Buckley Some of their works are listed in the bibliography Myths and heroic tales that inform western literature and adjust our perspective come principally from the Greeks especially from Homer and from Vergil who told the great tale of Troy that fulfilled the dreams of Rome Homer delighted in the natural world in beautifully made arms cups tapestries all bathed in a pitiless light The old Anglo Saxon poets who also wrote in the epic tradition felt particularly the mightiness of evil the transience of life and the power of the word to shape the world and to hold themselves in remembrance The Middle Ages achieved the greatest dream of all uniting the mythical with the practical painting great panoramas of life meditating upon the unseen and the Elizabethan age rediscovered heroism and the power of personality After the free discourse and argument of the seventeenth century with its resulting wars and fragmentation a more cohesive nation emerged one that came to believe in reason and mans own mind while the Romantic poets who followed show sometimes disastrously the wildness of individualism of diversity apart from social integration and a common faith The long Victorian afternoon and golden evening of the nineteenth century saw an expansion of these tendencies and a renewing of faith but there has been no significant new development from the revolution and romanticism of a century earlier Rather the movement has played itself out with post modernism This is your hour John Carter Wood, 2019-05-02 In the 1930s and 1940s amid the crises of totalitarianism war and a perceived cultural collapse in the democratic West a high profile group of mostly Christian intellectuals met to map out middle ways through the age of extremes Led by the missionary and ecumenist Joseph H Oldham the group included prominent writers thinkers and activists such as T S Eliot John Middleton Murry Karl Mannheim John Baillie Alec Vidler H A Hodges Christopher Dawson Kathleen Bliss and Michael Polanyi The Oldham group saw faith as a uniquely powerful resource for social and cultural renewal and it represents a fascinating case study of efforts to renew freedom in a dramatic confrontation with totalitarianism The group s story will appeal to those interested in the cultural history of the Second World War and the issue of applying faith to the modern social order
