**Informal Empire in Latin America** Matthew Brown, 2009-04-20 This volume is an interdisciplinary interrogation of the concept of British informal empire in Latin America It builds upon recent advances in the historiography of imperialism and studies of the nineteenth century modern world most obviously the work of Ann Stoler Catherine Hall and C A Bayly Combining a comparative perspective with the juxtaposition of political economy cultural history gendered and postcolonial approaches and by proposing and debating alternative explanatory models the book breathes new life into the flagging concept of informal empire It illuminates the study of British imperialism from which Latin America is usually conspicuous only by its absence and provides a broad and sound basis for interpreting the complex processes of nation building and state formation in Latin America The book includes essays by scholars who have been shaping the debate for several decades alongside work by a younger generation of researchers keen to re conceptualise and re assess the roles of capital commerce and culture in shaping informal empire

### **Literary Afterlife**

Bernard A. Drew, 2010-03-08 This is an encyclopedic work arranged by broad categories and then by original authors of literary pastiches in which fictional characters have reappeared in new works after the deaths of the authors that created them It includes book series that have continued under a deceased writer s real or pen name undisguised offshoots issued under the new writer s name posthumous collaborations in which a

deceased author's unfinished manuscript is completed by another writer unauthorized pastiches and biographies of literary characters The authors and works are entered under the following categories Action and Adventure Classics 18th Century and Earlier Classics 19th Century Classics 20th Century Crime and Mystery Espionage Fantasy and Horror Humor Juveniles 19th Century Juveniles 20th Century Poets Pulps Romances Science Fiction and Westerns Each original author entry includes a short biography a list of original works and information on the pastiches based on the author's characters [How Fiction Follows Fiction](#) Alberto Voltolini, 2006-11-22 This book is devoted to fictional entities or to be more precise fictional entities as they emerge from the literary process of storytelling They encompass the great immortal figures in human literature Don Quixote Faust Sherlock Holmes and so on as well as the protagonists of single novels such as Anna Karenina Emma Woodhouse and Emma Bovary and even the unknown characters in the oral tradition of storytelling developed by small communities of people for their own entertainment This is presumably how Achilles Penelope and Ulysses originated We must also include among these figures mythological characters such as Apollo Odin and Zeus regardless of the fact that they were originally thought to be supernatural beings rather than fictional individuals The subject of this book is not new which may make it seem less appealing to a prospective reader just one more book on fictional entities Yet I would argue that this apparent drawback is fundamental to the purpose of the book which is to present a syncretistic doctrine of fictional entities In other words it is a theory which firmly acknowledges that the various other theories already developed on this subject have great merits Their main flaw however is not that they are wrong but rather that they are incomplete Accordingly they are not to be put to one side instead they need to be integrated into a single theory that aims both to maintain their positive results and to overcome their defects [Library Journal](#), 1997 [Female Corpses in Crime Fiction](#) Glen S. Close, 2018-10-10 This book examines the central significance of sexualized female corpses in modern and contemporary Hispanic and Anglophone crime fiction Beginning with the foundational detective fictions of the nineteenth century it draws from diverse subgenres to describe a transatlantic tradition of necropornography characterized by lascivious interest in female cadavers dissection morgues femicide and snuff movies Hard boiled and police procedural classics from the U S and the U K are juxtaposed with texts by established Spanish and Spanish American genre masters and with obscure works that prefigure the contemporary transmedial boom in corpse centered fictions The rhetoric and aesthetics of necropornographic crime fiction are related to those of popular crime journalism and forensic science television dramas This study argues that crime fiction has long fixated disproportionately on the corpses of beautiful young white women and continues to treat their deaths and autopsies as occasions for male visual pleasure male subjective self affirmation and male homosocial bonding
