Hearings United States. Congress. House. Committee on Immigration and Naturalization, 1919 **The Best China** John Minford, 2021-01-15 The Best China an expression traditionally used to refer to the finest crockery brought out when one is entertaining special guests has been adapted here to mean the Best Chinese Tradition of free thinking discursive prose This anthology of essays from Hong Kong and the diaspora ranging across the past hundred and seventy years records the intellectual ferment that has always characterised the city since its founding in 1842 sometimes restless and questioning sometimes meditative and lyrical always civilised and buoyed by an all pervasive and indomitable spirit of freedom A Synopsis of Criticisms Upon Those Passages of the Old Testament Richard Arthur Francis Barrett, 1847 **After the Fall** Ben Rhodes, 2021-06-01 NEW YORK TIMES BESTSELLER Vital reading for Americans and people anywhere who seek to understand what is happening after the fall of the global system created by the United States New York Journal of Books from the former White House aide close confidant to President Barack Obama and author of The World as It Is At a time when democracy in the United States is endangered as never before Ben Rhodes spent years traveling the world to understand why He visited dozens of countries meeting with politicians and activists confronting the same nationalism and authoritarianism that are tearing America apart Along the way he discusses the growing authoritarianism of Vladimir Putin and his aggression towards Ukraine with the foremost opposition leader in Russia who was subsequently poisoned and imprisoned he profiled Hong Kong protesters who saw their movement snuffed out by China under Xi Jinping and America itself reached the precipice of losing democracy before giving itself a fragile second chance The characters and issues that Rhodes illuminates paint a picture that shows us where we are today from Barack Obama to a rising generation of international leaders from the authoritarian playbook endangering democracy to the flood of disinformation enabling authoritarianism Ultimately Rhodes writes personally and powerfully about finding hope in the belief that looking squarely at where America has gone wrong can make clear how essential it is to fight for what America is supposed to be for our own country and the entire world **Ibn Rushd's Metaphysics** Averroës, 1886 **Spurgeon's Sermons Volume 18: 1872** Charles Haddon Spurgeon, 2017-11-28 Charles Spurgeon was one of the most evangelical and puritan of protestant ministers in the 19th century In the eighteenth volume of these series of sermons these charismatic and inspiring sermons are enough to encourage convict and inspire anyone who seeks a closer and more intimate relationship with God Corruption in Argentina Natalia A. Volosin, 2019-08-20 The book provides an institutional historical and sectorial analysis of Argentina's structural corruption Looking back over the last 200 years the book demonstrates that Argentina has historically addressed corruption through ineffective debates between public private biases or a cultural criminal approach reinforced by modernization theory neither of which have helped tackle the problem Instead Volosin proposes meaningful institutional reforms to reduce opportunities for corruption and to increase monitoring incentives and capabilities The book argues that

political economy hindrances for reform are as significant as reform itself and shows that in times of crisis or scandal the need to move quickly to satisfy citizen demands forces politicians to promote unplanned changes that lack real teeth Moreover the machine's reach over most public and private actors precludes regime undermining reform which is precisely what is needed to meaningfully attack entrenched structural corruption In order to combat serious deficits in the public procurement regime Volosin recommends a micro sectorial analysis of government procurement supported by an innovative human rights strategy to help measure and disclose corruption's hidden social cost raise awareness integrate vulnerability criteria into the fight against corruption and employ local regional and international litigation and monitoring tools to compel the political branches to perform structural change This innovative exploration into corruption in Argentina will be of interest to researchers working on public policy administrative law anticorruption studies law and development and governance both in Argentina and beyond

Real World Justice A. Follesdal, T. Pogge, 2005-06-08 The concept of global justice makes visible how we citizens of affluent countries are potentially implicated in the horrors so many must endure in the so called less developed countries Distinct conceptions of global justice differ in their specific criteria of global justice However they agree that the touchstone is how well our global institutional order is doing compared to its feasible alternatives in regard to the fundamental human interests that matter from a moral point of view We are responsible for global regimes such as the global trading system and the rules governing military interventions These institutional arrangements affect human beings worldwide for instance by shaping the options and incentives of governments and corporations Alternative paths of globalization would have differed in how much violence oppression and extreme poverty they engender And global institutional reforms could greatly enhance human rights fulfillment in the future The importance of this global justice approach reaches well beyond philosophy It enables ordinary citizens to understand their options and responsibility for global institutional factors and it challenges social scientists to address the causes of poverty and hunger that act across borders The present volume addresses four main topics regarding global justice The normative grounds for claims regarding the global institutional order the substantive normative principles for a legitimate global order the roles of legal human rights standards and some institutional arrangements that may make the present world order less unjust All royalties from this book have been assigned to Oxfam

The New Nicaragua Steven E. Hendrix, 2009-09-03 An insider's look at the changes going on in Nicaragua the internal political maneuvering of Daniel Ortega the responses by the United States and the success of recent American pro democracy civil society efforts there At the time of Ortega's return to the presidency attorney and award winning author Steven Hendrix was on the ground in Nicaragua working for the U S Agency for International Development The New Nicaragua Lessons in Development Democracy and Nation Building for the United States is Hendrix's eyewitness account of the changes going on there What Hendrix found in the new Nicaragua is a decidedly mixed bag a presidential campaign marked by dirty tricks and backroom deals yet an election held under the first
