The Rose and the Lotus Stefano Mercanti, 2009-01-01 Raja Rao one of the founding figures of Indian English literature is re examined in this comprehensive study of his fiction which offers a fresh critical investigation into both his short stories and his novels Powerfully contradicting the long held perception of Raja Rao as a mere metaphysical writer and the true bard of quintessential Indianness projected by many critics of the first Commonwealth generation over three decades Stefano Mercanti posits Rao s fiction in terms of its dialogic interaction the partnership between Western and Eastern cultural traditions and demonstrates how it evolves during the course of his oeuvre on both the philosophical and the political level The title The Rose and the Lotus signals the discursive terrain for a multicultural and interwoven evolution among different cultures and points to the need for valuing relations of reciprocity rather than those of domination Far from conveying univocal configurations and nationalistic stereotypes Rao s idea of India is seen as the epicentre of many echoes and dynamic resonances both Western and Eastern through which a distinct blend of Indian and European influences is more clearly unravelled In this new critical re appraisal Mercanti draws on non binary and inter multi disciplinary paradigms thus signalling the complex transformations and multiple negotiations of a polyglot India caught between the cultural twilight of the modern and the traditional The study also offers an invaluable linguistic analysis of Rao s experiment with the English language supplemented by a detailed glossary

Enlightenment U. G. Krishnamurti, 2021-03-27 People call me an enlightened man I detest that term they can t find any other word to describe the way I am functioning At the same time I point out that there is no such thing as enlightenment at all I say that because all my life I ve searched and wanted to be an enlightened man and I discovered that there is no such

thing as enlightenment at all and so the question whether a particular person is enlightened or not doesn't arise I don't give a hoot for a sixth century BC Buddha let alone all the other claimants we have in our midst They are a bunch of exploiters thriving on the gullibility of the people There is no power outside of man Man has created God out of fear So the problem is fear and not God

Tribute To Adi Shankaracharya) Raghunandan Trikanad,2021-01-01 Anne of Avonlea is a novel by Lucy Maud Montgomery It was first published in the year 1909 A tall slim girl half past sixteen with serious gray eyes and hair which her friends called auburn had sat down on the broad red sandstone doorstep of a Prince Edward Island farmhouse one ripe afternoon in August firmly resolved to construe so many lines of Virgil an excerpt **A History of Early Vedānta Philosophy** Hajime Nakamura,1983 *Biology Of Enlightenment* Mukunda Rao,2012-07-21 In this book we meet with the modern sage U G Krishnamurti and listen to his penetrating voice describing life and reality as it is What is body and what is mind Is there a soul Is there a beyond a God What is enlightenment Is there a life after death Never before have these questions been tackled with such simplicity candour and clarity In these unpublished early conversations with friends 1967 71 U G discusses in detail his search for the truth and how he underwent radical biological changes in 1967 Preferring to call it the natural state over enlightenment he insists that whatever transformation he has undergone is within the structure of the human body and not in the mind at all It is the natural state of being that sages like the Buddha Jesus and in modern times Sri Ramana stepped into And U G never tires of pointing out that this is the way you stripped of the machinations of thought are also functioning **The Ethics of Sankara and Santideva** Warren Lee Todd,2016-03-23 Exploring the philosophical concerns of the nature of self this book draws from two of the most influential Indian masters a kara and ntideva Todd demonstrates that an ethics of altruism is still possible within a metaphysics which assumes there to be no independent self A new ethical model based on the notions of flickering consciousness and constructive altruism is proposed By comparing the metaphysics and ethics of a kara and ntideva Todd shows that the methodologies and aims of these Buddhist and Hindu masters trace remarkably similar cross cutting paths Treating Buddhism and Hinduism with equal respect this book compares and reinterprets the Indian material so as to engage with contemporary Western debates on self and to show that Indian philosophy is indeed a philosophy of dialogue *The Book Review* ,1998 *The Book of Enlightened Masters* Andrew Rawlinson,1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters

have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others *Sankara and Shanmata* ,1969
