Ho! To the Land of Sunshine William Penner, Shawn Kelley, Nicholas Parker, 2013-11-08 The Belen Cutoff gave the AT SF Railway a legitimate transcontinental freight line by eliminating the steep grades of Raton Pass The Cutoff also transformed the eastern plains of New Mexico in the first half of the twentieth century leading to New Mexico's most significant population increase as many homesteaders came to the region This book tells that story by providing the perspectives of the AT SF balanced by the experiences and narratives of railroad workers homesteaders and others New research includes detailed consideration of internal railroad documents local newspapers and extensive oral history interviews As a result this is the definitive account of the Belen Cutoff and provides a more complete and nuanced history of the region and the AT SF Railway in New Mexico

High Speed Rail Planning, Policy, and Engineering, Volume II Terry L. Koglin, 2016-02-08 This second volume of High Speed Rail Planning Policy and Engineering examines one particular potential high speed rail line in the United States looking at the possibility of operating high speed freight trains to help increase revenues to finance the system The evaluation includes a look at fixed property track and terminals and patronage The proposed route is examined in some detail and the best types of trains for the route are also discussed The author brings attention to existing conditions potential line improvements and development of the proposed line as well as costs for operating and equipment particularly fuel motive power track and structures
