The Arab State Giacomo Luciani, 2015-07-24 It has often been argued that Arab states are arbitrary political creations lacking historical or present legitimacy This book first published in 1990 provides a different picture of the Arab state drawing on historical economic philosophical and sociological perspectives to give a balanced and convincing view of the complex reality of contemporary Arab politics The contributors from the Arab countries from Europe and the United States investigate the roots of the nation state in the Arab world evaluating in particular the economic bases of individual states They discuss the evolution of Arab societies and the way this is reflected in different states and examine the problems of domestic and international integration in the Arab context Original and comprehensive in its findings this is an essential text on the fundamental political structure of the Arab world Its interdisciplinary breadth makes possible an entirely new reading of the political reality of the Middle East

Political Modernization in the Gulf Shahid Jamal Ansari, 1998 The entire Gulf is passing through a transitional phase The member states of the Gulf Cooperation Council GCC are witnessing change in varying degrees The change has become too evident from the 1960s It was oil more than any other factor which was

responsible for a rapid transition Control over oil production and marketing have led to the strengthening of governmental role as owner and distributor of oil income The regions tribal society is being transformed into a modern society Political modernization is a recent phenomenon if the nature and extent of structural and informal transformations are taken into account Three broadly defined phases of political change can be discerned in the Arabian Peninsula the traditional the neo traditional and the modernizing or post traditional The modernizing phase was initiated by radical policies of socio economic development including the necessary restructuring of replacement of regimes and a redefinition or expansion of the scope and role of the state However the pace and direction of change is not clear enough The coming few decades are crucial in this regard

The United States and the Gulf Joseph Wright Twinam,1997-10-11 Joseph Twinam offers an intriguing historical analysis of Washington s deep rooted relationships with the GCC states and pre revolutionary Iran On a positive note the development of US interests in GCC states has been truly remarkable But among the Gulf littoral countries only a quarter of the people live in GCC states The overwhelming majority are in two countries with which American relations are wretched and prospects for their improvement are bleak Twinam stresses that the uncertain future of Iraq certainly raises an enormous question mark over the future of American relations with the Gulf Iran in Twinam s opinion is perhaps more predictable since the theocracy appears fully entrenched The result of the May 1997 elections raised the hope that Iranians may come to enjoy somewhat more tolerant leadership although the author believes it offers no serious encouragement for improved US Iranian relations Moreover Twinam believes that anti Americanism has become so deeply entrenched in Iran s relatively young population that it may remain part of the political psyche for decades to come
