The Eighteenth Century, 1972 *Louis XIV* John B. Wolf, 1972-06-18 Professor Wolf focuses on the problems of high politics and war which intrigued Louis and were his instruments of power Without ignoring the fact that Louis was also a son husband lover and father as well as king he gives us a striking new image of Louis as soldier administrator and a vivid accurate picture of the king's impact on the military machine after 1691 his part in the drama of war and in the emergence of a new Europe *International Politics and Warfare in the Age of Louis XIV and Peter the Great* William Young, 2004 The Peace of Westphalia 1648 ending the Thirty Years War resulted in the rise of the modern European states system However dynasticism power politics commerce and religion continued to be the main issues driving International politics and warfare Dr William Young examines war and diplomacy during the Age of Louis XIV and Peter the Great His study focuses on the later part of the Franco Spanish War the Wars of Louis XIV and the Anglo Dutch Wars in the West In addition the author explores the wars of the Baltic Region and East Europe including the Thirteen Years War Second Northern War War of the Holy League and the Great Northern War The study includes a guide to the historical literature concerning war and diplomacy during this period It includes bibliographical essays and a valuable annotated bibliography of over six hundred books monographs dissertations theses journal articles and essays published in the English language International Politics and Warfare in the Age of Louis XIV and Peter the Great is a valuable resource for individuals interested in the history of diplomacy warfare and Early Modern Europe **Protestant Exiles from France in the Reign of Louis XIV, Or, The Huguenot Refugees and Their Descendants in Great Britain and Ireland** David C.A. Agnew, 1871 *French Colonial Louisiana and the Atlantic World* Bradley G. Bond, 2005-07-01 French colonial Louisiana has failed to occupy a place in the historic consciousness of the United States perhaps owing to its short duration 1699-1762 and its standing outside the dominant narrative of the British colonies in North America This anthology seeks to locate early Louisiana in its proper place bringing together a broad range of scholarship that depicts a complex and vibrant sphere Colonial Louisiana comprised the vast center of what would become the United States It lay between Spanish British and French colonies in North America and the Caribbean and between woodland and eastern plains Indians As such it provided a meeting place for Europeans Africans and native Americans functioning as a crossroads between the New World and other worlds While acknowledging colonial Louisiana's peripheral position in U.S. and Atlantic World history this volume demonstrates that the colony stands at the thematic center of the shared narratives and historiographies of diverse places Through its twelve essays French Colonial Louisiana and the Atlantic World tells a whole story the story of a place that belongs to the historic narrative of the Atlantic World **Protestant Exiles from France in the Reign of Louis XIV, Or, the Huguenot Refugees and Their Descendants in Great Britain and Ireland** David Carnegie Andrew Agnew, 1871 *Justice Blindfolded* Adriano Prosperi, 2018-09-11 Justice Blindfolded gives an overview of the history of justice and its iconography through the centuries

Justice has been portrayed as a woman with scales or holding a sword or since the fifteenth century with her eyes bandaged. This last symbol contains the idea that justice is both impartial and blind, reminding indirectly of the bandaged Christ on the cross, a central figure in the Christian idea of fairness and forgiveness. In this rich and imaginative journey through history and philosophy, Prosperi manages to convey a full account of the ways justice has been described, portrayed, and imagined.
