Loved Envied:

The Philosophy of Envy Sara Protasi, 2021-07-15 Envy is almost universally condemned But is its reputation warranted Sara Protasi argues envy is multifaceted and sometimes even virtuous Jealousy and Envy Léon Wurmser, Heidrun Jarass, 2011-02-25 Jealousy and envy permeate the practice of psychoanalytic and psychotherapeutic work New experience and new relevance of old but neglected ideas about these two feeling states and their origins warrant special attention both as to theory and practice Their great complexity and multilayered nature are highlighted by a number of contributions the very early inception of the triangular jealousy situations the prominence of womb envy and hatred against femininity rooted in the envy of female procreativity the role of shame and the core of both affects the massive effects of the embodiment of these feelings in the conscience i e the envious and resentful attacks by the inner judge against the self the attempt to construct a cultic system of sacrifices the would countermand womb envy by an all male cast of killing rebirth redemption and blissful nourishment and finally the projection of envy jealousy and their context of shame and self condemnation in the form of the Evil Eye Taken together the contributions to the stunning and insightful volume form a broad spectrum of new insights into the dynamics of two central emotions of rivalry and their clinical and cultural relevance and application **The Passions** P. M. S. Hacker, 2017-12-18 A survey of astonishing breadth and penetration No cognitive neuroscientist should ever conduct an experiment in the domain of the emotions without reading this book twice Parashkev Nachev Institute of Neurology UCL There is not a slack moment in the whole of this impressive work With his remarkable facility for making fine distinctions and his commitment to lucidity Peter Hacker has subtly characterized those emotions such as pride shame envy jealousy love or sympathy which make up our all too human nature This is an important book for philosophers but since most of its illustrative material comes from an astonishing range of British and European literature it is required reading also for literary scholars or indeed for anyone with an interest in understanding who and what we are David Ellis University of Kent Human beings are all subject to boundless flights of joy and delight to flashes of anger and fear to pangs of sadness and grief We express our emotions in what we do how we act and what we say and we can share our emotions with others and respond sympathetically to their feelings Emotions are an intrinsic part of the human condition and any study of human nature must investigate them In this third volume of a major study in philosophical anthropology which has spanned nearly a decade one of the most preeminent living philosophers examines and reflects upon the nature of the emotions advancing the view that novelists playwrights and poets rather than psychologists and cognitive neuroscientists elaborate the most refined descriptions of their role in human life In the book's early chapters the author analyses the emotions by situating them in relation to other human passions such as affections appetites attitudes and agitations While presenting a detailed connective analysis of the emotions Hacker challenges traditional ideas about them and criticizes misconceptions held by philosophers psychologists and cognitive neuroscientists With the help of abundant examples and illustrative quotations from the Western

literary canon later sections investigate describe and disentangle the individual emotions pride arrogance and humility shame embarrassment and guilt envy and jealousy and anger The book concludes with an analysis of love sympathy and empathy as sources of absolute value and the roots of morality A masterful contribution this study of the passions is essential reading for philosophers of mind psychologists cognitive neuroscientists students of Western literature and general readers interested in understanding the nature of the emotions and their place in our lives Love Is . . .
