Lua Thieng:

The Ethnic Chinese and Economic Development in Vietnam Tran Khanh, 1993 Economic reforms in Vietnam have allowed its ethnic Chinese citizens to prosper but growing Chinese economic strength harbours the seeds of political problems The topic is also meshed with the larger concern of Sino Vietnamese relations which in the best of times can be coloured by a suspicion which goes back centuries In the worst of times as in 1978 79 both sides were engaged in open warfare To understand the current situation this book delves into the origins of Chinese settlement in Vietnam tracking the flow of history through the major events which have shaped the Chinese mercantile community and made it what it is today The most significant feature of this work is that it draws on Western Russian and Vietnamese sources as well as the writer's own familiarity with the actual situation on the ground

Memory in the Mekong Will Brehm, Yuto Kitamura, 2022 This is a pathbreaking work at the intersection of international relations the politics of education and the construction of historical memory Highly recommended Kanishka Jayasuriya Murdoch University Australia This edited collection explores the possibilities perils and politics of constructing a regional identity The Association of Southeast Asian Nations ASEAN a multinational institution comprised of 10 member states is dedicated to building a Southeast Asian regional identity that includes countries along Southeast Asia's Mekong River delta Cambodia Thailand Vietnam Laos and Myanmar After successfully establishing an economic community in 2015 where capital and people can freely move across national borders ASEAN and its partners now aim to develop a sociocultural community that is fully functional in a wide range of sectors by 2025 As part of this vision ASEAN wishes to construct a regional identity by uniting over 600 million people which will be achieved partly through national school systems that teach shared histories In this text the contributors critically examine the many questions that arise in the face of this significant change What does an ASEAN identity look like Is it even possible or desirable to create a common identity across the diverse peoples of Southeast Asia Given the divergent memories of history how would a regional identity exist alongside national identity Memory in the Mekong grapples with these questions by exploring issues of shared history national identity and schooling in a region that is frequently underexamined and underrepresented in Western scholarship Contributors Will Brehm Bich Hang Duong Yasushi Hirosato Yuto Kitamura Somsanit Larvankham Rosalie Metro Thongdeuane Nanthanavone Vong on Phuaphansawat Anna Zongolowicz

The Encyclopedia of the Vietnam War Bloomsbury Publishing, 2011-05-20 Now in its second edition this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today's world Now in its second edition The Encyclopedia of the Vietnam War A Political Social and Military History adds an entire additional volume of entries to the already exhaustive first edition

making it the most comprehensive reference available about one of the most controversial events in U S history Written to provide multidimensional perspectives into the conflict it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history including the French experience and the Indochina War as well as the origins of the conflict how the United States became involved and the extensive aftermath of this prolonged war It also provides the most complete and accurate order of battle ever published based upon data compiled from Vietnamese sources This latest release delivers even more of what readers have come to expect from the editorship of Spencer C Tucker and the military history experts at ABC CLIO

Revolution in the Village Hy Van Luong,1992-04-01 One of the most significant efforts to result thus far from the improvement in scholarly access to North Vietnam Combining life history interviewing with archival research in Vietnam Canada and France the book focuses on the village sociocultural system s encounter with Western colonialism capitalism and socialist revolution Journal of Asian Studies

Vietnamese Communism, 1925-1945 Kim Khánh Huỳnh,1986 From a cell of nine men in 1925 the Vietnamese Communists grew by December 1976 into a massive party with over 1 5 million members and the organizational and military capabilities to defeat the United States What factors account for the outstanding success of the Indochinese Communist Party In this book Huynh Kim Kh nh traces the Vietnamese Communist movement from its inception as a radical youth group founded by Ho Chi Minh then Nguyen Ai Quoc to its half planned half accidental victory in 1945

The Chinese State at the Borders Diana Lary,2011-11-01 In this ground breaking study Hsiao Ting Lin demonstrates that the Chinese frontier was the subject neither of concerted aggression on the part of a centralized and indoctrinated Chinese government nor of an ideologically driven nationalist ethnopolitics Instead nationalist sovereignty over Tibet and other border regions was the result of rhetorical grandstanding by Chiang Kai shek and his regime Tibet and Nationalist China s Frontier makes a crucial contribution to the understanding of past and present China Tibet relations A counterpoint to erroneous historical assumptions this book will change the way Tibetologists and modern Chinese historians frame future studies of the region

In Search of Moral Authority Van Nguyen-Marshall,2008 In Search of Moral Authority The Discourse on Poverty Poor Relief and Charity in French Colonial Vietnam is a pioneering exploration of the discourses on poverty and poor relief activities in early twentieth century Northern Vietnam Treating poverty as a socially constructed idea Van Nguyen Marshall argues that poor relief was a domain where both French colonialists and Vietnamese intellectuals vied for moral authority For the French colonial officials poor relief fell within the purview of the French civilizing mission the official justification for imperialism However the colonial agenda racial prejudices and the French administrators own ambivalent attitudes toward the poor made any attempt at poor relief doomed for failure For Vietnamese intellectuals the discourse and activities on poor relief became a rallying call for patriotism nationalism and for some anti colonialism In Search of Moral Authority deals with social issues such as charity and poor relief as well as the construction of national and gender identity by Vietnamese intellectuals This book is essential

reading for students and specialists of Vietnamese history as well as those interested in issues of poverty public welfare and charity

Labour in Vietnam Anita Chan, 2011-08-12 Two decades after Vietnam introduced a programme of economic renovation commonly known as Doi Moi the country today allows market competition in industry and a new working class has been created This is the first book to focus on the role and conditions of workers in the new economic regime The authors of the book trace Vietnam's labour history explore the impact of the socialist legacy and examine the reasons for the large number of recent strikes The book provides insights into the workforce of one of Asia's most rapidly developing industrial economies

The Vietnamese Family in Change Pham Van Bich, 2013-10-11 Like most societies Vietnam has seen marked changes in family structures and dynamics this century For Vietnam however these changes have been especially radical After decades of French acculturation the 1940s brought sweeping economic changes and a move away from collectivism Perhaps because of Vietnam's long isolation from the late 1970s into the early 1990s very little has been written on the Vietnamese family This text provides an examination of the Vietnamese family focusing on two fundamental relationships husband wife and parent children within their wider social and historical context The author explores how and why marital partners are chosen individual's domains within the family reproduction and birth control son preference ancestor worship and the role of the state As such the study will be of interest not just to sociologists but also to those scholars looking to understand the current social transformation of Vietnam
