Hooykaas,1983 **KEYLUX. A CHAVE PARA O CONTATO** Fabio Del Santoro,2010-06-22 Este livro procura trazer o contato entre o autor e um extraterrestre do planeta Arcturus visando a promover ao leitor uma sensação de ser possível ampliar a participação de cada um no universo Beyond the Line Georg Berkemer,Derek L. Elliot,Ute Fendler,Margret Frenz,Michael Mann,Ineke Phaf-Rheinberger,Sebastian R. Prange,Ana Sobral,Frank Schulze-Engler,2014-04-23 The title of *Beyond the Line* refers to the imaginary Line drawn between North and South a division established by the Peace Treaty of Cateau Cambrésis in 1559 This is an early modern time and Eurocentric construction according to which the southern oceanic world has long been taken as symbol of expansionist philosophies and practices An obvious motivation for changing this Line division is the growing influence of the Global South in the contemporary economic and political setting However another motivation for changing opinions in regard to the Line is equally important We observe an emergent consciousness of the pivotal role of the oceanic world for human life This requires the reformulation of former views and raises numerous questions A diversity of connections comes to the mind which demands the composition of a catalogue of case studies with an oceanic horizon Through this operation different problems are being linked together Which problems encounter historians with their research on fishes in the archives How to trace records about pirates of non European descent in the Indian Ocean Which role play the Oceans as mediators for labor migrations not only of the Black Atlantic but also of people moving from Asia to Africa and vice versa What do we know about workers on the oceans and their routes When considering oceans as contact zones with which criteria can their influence in different literary texts be analyzed Is it possible to study nationalisms taking into account these transoceanic relationships And how do artists address these questions in their use of the media Against the background of this catalogue of oceanic questions old stories are told anew Sometimes their cultural stereotypes are recycled to criticize political and social situations Or in other cases they are adopted for elaborating alternative options

In this sense the contributions concentrate on countries like India Kenya Angola or Brazil and cover different academic fields A variety of objects and situations are explored which have been and still are determinant for the construction of cultural narratives in view of the modified relationship with the geographically southern oceanic regions

Portuguese Merchants in the Manila Galleon System Cuauhtémoc Villamar,2020-12-16 Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century The rise of Manila as a crucial transshipment port was not a spontaneous incident Instead it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system a trading mechanism that lasted two and half centuries from 1565 until 1815 Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions predictability to the transportation and security to the stakeholders He looks both at the Spanish crown strategy in Asia and the emergence of a network of Portuguese merchants located in Manila and active in the long distance trade This informal community of merchants participated from the inception of the trading system across the Pacific with connections between Europe ports in Asia under the control of Portugal the Spanish colonies in America and the city of Manila From its inception the newly founded capital of the Philippines became a hub of connections attracting part of the trade that already existed in Asia Surveying the Portuguese commercial networks from the Estado da Índia across the Spanish lake this book sheds light on the early modern globalization from a truly comprehensive Iberian perspective This is a valuable resource for scholars of Pacific and Iberian trade history and the maritime history of Asia

The Eruption of Insular Identities Brianna Medeiros,2020-06-21 The Eruption of Insular Identities explores themes common to the literatures of the Azores and Cape Verde two isolated archipelagos in the former Portuguese empire but contemporaneously in the Portuguese speaking world In the 1930s writers from both archipelagoes initiated projects to explore *acorianidade* and *caboverdianidade* firmly placing narratives within their respective regional spaces a tradition that would be continued by following generations Despite vast differences in the realities in the two archipelagos in terms of race and politics the insularity lent itself to two bodies of literature with striking similarities The authors aim is to set out these similarities as a means to understanding the differences in rhetoric and treatment of this commonality Earlier scholarly work has suggested the comparison but this book is the first extensive study comparing the literatures of the two archipelagoes Within the field of Lusophone studies the study of Lusophone African literatures are gaining international literary appeal Cape Verdean writer Germano Almeida won the Premio Camões in 2018 one of the most prestigious awards for Portuguese language authors His work is explored extensively in the volume The Eruption of Insular Identities provides a perspective on Cape Verdean literature that brings to the fore the nations social reality and literary production its individual insularity which distances it from most of the other Lusophone African nations And it provides an in depth comparison to the second region under study the Azores
