**ECAI 2006** Gerhard Brewka, 2006 In the summer of 1956 John McCarthy organized the famous Dartmouth Conference which is now commonly viewed as the founding event for the field of Artificial Intelligence. During the last 50 years AI has seen a tremendous development and is now a well established scientific discipline all over the world. Also in Europe AI is in excellent shape as witnessed by the large number of high quality papers in this publication. In comparison with ECAI 2004 there is a strong increase in the relative number of submissions from Distributed AI Agents and Cognitive Modelling. Knowledge Representation Reasoning is traditionally strong in Europe and remains the biggest area of ECAI 2006. One reason the figures for Case Based Reasoning are rather low is that much of the high quality work in this area has found its way into prestigious applications and is thus represented under the heading of PAIS.

*Solitons* Mohamed Atef Helal, 2022-11-12 This newly updated volume of the Encyclopedia of Complexity and Systems Science ECSS presents several mathematical models that describe this physical phenomenon including the famous non linear equation Korteweg de Vries KdV that represents the canonical form of solitons. Also there exists a class of nonlinear partial differential equations that led to solitons e.g. Kadomtsev Petviashvili KP Klein Gordon KG Sine Gordon SG Non Linear Schrödinger NLS Korteweg de Vries Burger's KdVB etc. Different linear mathematical methods can be used to solve these models analytically such as the Inverse Scattering Transformation IST Adomian Decomposition Method Variational Iteration Method VIM Homotopy Analysis Method HAM and Homotopy Perturbation Method HPM. Other non analytic methods use the computational techniques available in such popular mathematical packages as Mathematica Maple and MATLAB. The main purpose of this volume is to provide physicists engineers and their students with the proper methods and tools to solve the soliton equations and to discover the new possibilities of using solitons in multi disciplinary areas ranging from
