Fostering Children's Mathematical Power Arthur Baroody, Arthur J. Baroody, Jesse L.M. Wilkins, Ronald T.

Coslick, 1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children s mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a meaningful manner this approach promotes children s mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics

Reconstructing the Work of Teacher Educators Theresa Bourke, Deborah

Henderson, Rebecca Spooner-Lane, Simone White, 2022-08-30 This book examines agentic approaches by which teacher

educators navigate a highly regulated environment It investigates how teacher educators are responding to such regulation by employing approaches such as exploratory and case study research designs This book analyzes qualitative and quantitative data to understand the diverse innovative and critical perspectives of teacher educators who are guided by state and federal level initiatives to enhance the quality Initial Teacher Education ITE programs Prominent educational theoretical perspectives are also used in this book to inform data analysis and to illuminate the empirically based findings This book showcases research informed insights for the global education community from leading researchers from across a number of teacher education institutions locally and otherwise By adopting an activist approach this book positions teacher educators research and contribution to the field as agentive and pro active **The American Mathematical Monthly** ,1905 The Science Teaching Efficacy Belief Instruments (STEBI A and B) James Deehan,2016-07-28 The purpose of this Springer Brief is to provide a comprehensive review of both the STEBI methods and findings through the use of a clearly defined analytic framework A systematic review of literature yielded 107 STEBI A research items and 140 STEBI B research items The STEBI instruments have been used in a wide range of qualitative cross sectional longitudinal and experimental designs Analysis of the findings of the papers reveals that in service and pre service programs that use innovative practices such as cooperative learning inquiry based investigation and nature of science instruction can produce positive growth in participants science teaching efficacy beliefs The personal science teaching efficacy beliefs of pre service and in service teachers showed greater mean scores and higher growth than their outcome expectancies Implications are discussed **Resources in Education** ,1999-10
