Elementary Mathematics Curriculum Materials Janine T. Remillard,Ok-Kyeong Kim,2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the

nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors *State of State Standards 2000* Chester E. Finn, Jr., Michael J. Petrilli, 2000-08 Examines several questions about education How good are state academic standards How many states now match solid standards with strong school accountability Are they better than two years ago Chapters overview essay The State of Standards in 2000 analytic essays by reviewers English by Sandra Stotsky history by David W Saxe Geography by Susan Munroe Mathematics by Ralph A Raimi Science by Lawrence S Lerner state documents examined school based accountability 30 charts tables *Guide to the 1992 Illinois State Assessment*, 1992 *Math Trailblazers 2E G3 Teacher Implementation Guide* TIMS Project, 2004 A complete research based K 5 mathematics program integrating math science and language arts The program embodies the NCTM Principles and standards for school mathematics and is based on the ideas that mathematics is best learned by solving problems in real world contexts and that a curriculum should balance conceptual understanding and procedural skill P 4 of cover *Research in Education*, 1971
