Trilogies as Cultural Analysis

Gregory Stephens, 2018-10-12 This book offers a big picture view of three universal themes as seen in literary representations: sea crossing tales, human-animal relations, and late father-son relationships. Seen in triptych, these writings demonstrate how passing between worlds and across cultures has become the normative human condition. Authors analyzed within a hemispheric and post-national frame include works by Ernest Hemingway, J. M. Coetzee's late Jesus novels, and Esmeralda Santiago's *When I Was Puerto Rican*. Fusing literary criticism, communication studies, and literary nonfiction within a writing studies framework, *Trilogies* argues for the inclusion in our writing of personal, institutional, and disciplinary perspectives. The book invites readers to re-imagine writing and communication styles. How can we envision and communicate the representations of between-world experiences that are all around us? What kinds of writing and communication styles can travel beyond our bubbles, engage General Education students, and gain a hearing in the public sphere?

By translating four plays that collectively span this cycle, John Hawley provides a lively perspective on the mythology of Krishna as Hindus experience it today.
