or

Keltic & Hindu Links

A penetrating archaeological study of antiquarian relics and symbolic representations, which under the treatment of the author seem no longer inanimate, but pulsating with life. She depicts Nature as a whole with Man in the foreground, as visualised by the ancient records in the British Isles, America, and Northern India.

Matter, Myth, and Spirit Dorothea Chaplin, 1935 **Matter, Myth and Spirit** Dorothea Chaplin, 1935 **Matter, Myth and Spirit. With [plates And] Illustrations** Dorothea Chaplin, 1935 **Matter, Magic, and Spirit** David Murray, 2013-04-23

The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity owing to their marked difference from the religious traditions of white writers and researchers. *Matter Magic and Spirit* explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses including anthropology, comparative religion, and literature. Though these beliefs were widely dismissed as primitive superstition and inferior to higher religions like Christianity, distinctions were still made between the supposed spiritual capacities of the different groups. David Murray's analysis is unique in bringing together Indian and African beliefs and their representations. First tracing the development of European ideas about both African fetishism and Native American primitive belief, he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century. Crucially, this comparative approach to practices that were dismissed as conjure or black magic or Indian medicine points as well to the importance of their cultural and political roles in their own communities at times of destructive change. Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers as demonstrated through the work of Charles Chesnutt and Simon Pokagon and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s through the work of Zora Neale Hurston, Zitkala-Sa, and others. Later sections demonstrate how contemporary writers including Ishmael Reed and Leslie Silko deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity.

This narrative shows how the contours of moral and political philosophy in the seventeenth and eighteenth centuries were shaped by Kant's two distinct philosophical responses to the results of modern science. This history of early modern Western philosophy takes its inspiration from Kant's claim that the battle between the metaphysics of matter and that of spirit is the principal axis around which modern philosophy up to his time in all its aspects has revolved. The empiricist materialist trend that dominates in England is first examined in the progressively unfolding works of Hobbes, Locke, Berkeley, Hume, and Adam Smith. A contrasting and competing dialectic develops in the rationalist spiritualist trend in the continental philosophy of Descartes, Leibniz, and Rousseau. Framing this history is the background context of the philosophy and science of Aristotle and the challenges to the traditional paradigm presented by the revolutionary sciences of Copernicus, Galileo, and Newton. Lawler is Professor of Philosophy at the State University of New York at Buffalo **The Counselor . . . as if Soul and Spirit Matter** William Bento, Edmond Knighton, 2015-03-01 In an anthroposophic approach to counseling and psychotherapy we integrate the whole paradigm of spiritual science into the contemporary forms of psychology thereby re-formulating a psychology inclusive of body, soul, and spirit. Dr. William Bento, Executive Director of Anthroposophic Psychology Associates of North America, APANA. The art of counseling is practiced in many settings. An uncle counsels a troubled niece. A licensed professional clinical counselor, LPCC, works in a treatment center for drug addicts. A counselor can also be everything in between the two. If you consider everyone who mentors another, from life coaches to police officers to wedding planners to lawyers to intimate friends, counseling includes all of us. Whereas mainstream counseling psychology has been moving increasingly toward cognitive and pharmacological approaches, this book brings us back to a psychology of soul and spirit. Through the guidance of Anthroposophy, the becoming human being, and Sophia and divine wisdom, counselors will rediscover here an approach to people that has the heart of soul and the light of spirit. A Dictionary of the Sacred Language of All Scriptures and Myths (Routledge Revivals) G. Gaskell, 2016-03-10. G. A. Gaskell's Dictionary of the Sacred Language of All Scriptures and Myths, first published in 1923, examines several different aspects of religion, including examples from Ancient Egyptian religion and mythology to modern-day Christianity, providing explanations of gods, events, and symbols in alphabetical order. This is a perfect reference book for students of theology or the history of religion. **Egyptian Myths And Mysteries** Rudolf Steiner, 2016-12-14. Rudolf Steiner emphasizes the astonishing and special relationship between our own time and that of ancient Egypt. How in the natural rhythm of the ages the so-called third Post-Atlantian Egyptian epoch is mirrored by the fifth present epoch. In this sense, today it is especially relevant to look at ancient Egypt with fresh eyes. The evolution of Western civilization has been profoundly influenced by Egyptian myths through the Greek mysteries. Because of other influences, however, this heritage has degenerated; thinking has mummified, and myth has all but disappeared. Consequently, it is important to revive the seed of goodness passed down to us from ancient Egypt. Through true imagination, we have the task of renewing human knowledge of the creative forces in nature as the Egyptians attempted through the Osiris-Isis myth and the Greeks through the myth of Demeter. This is what Steiner attempts in this lecture cycle. Steiner's subjects include experiences of Egyptian initiations, esoteric anatomy and physiology, the stages of evolution of the human form, and much more. The final lecture is on the Christ impulse as the conqueror of matter. *A View of the History, Literature, and Mythology of the Hindoos* William Ward, 1822 *Revised Esoteric, a magazine of advanced and practical thought* The Esoteric, 1895 **Where Spirit Touches Matter** Melvin R. might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettlement of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader
