Barry Buzan, George Lawson

Natural Hierarchies The Historical Sociology Of Race And Caste:

Natural Hierarchies Chris Smaje, 2000-07-13 This original and provocative text provides an approach to understanding the emergence and development of social rank through race and caste The struggles we face in race and ethnic relations today are explored through anthropological historical and sociological lenses to understand the roots of social hierarchy drawing on examples from the Indian subcontinent the Caribbean and mainland America

Handbook of Historical Sociology Gerard Delanty, Engin F Isin, 2003-06-03 The overall conception of the volume is absolutely splendid and the editors skilfully place the material in the context of disciplinary and post disciplinary developments in sociology This is a major contribution to the field as well as a comprehensive and reliable guide to its main components William Outhwaite Professor of Sociology School of European Studies University of Sussex It is hard to think of anything that has been left out in this masterly survey of contemporary historical sociology The editors have done a superb job in the selection of both themes and contributors We now at last have an up to date book to assign in our graduate courses on comparative historical sociology There s really nothing else like it out there The editors introduction is one of the best things I have read on how the field developed and the problems it has encountered Krishan Kumar William R Kenan Jr Professor of Sociology University of Virginia The range of topics covered and the number of distinguished scholars who have contributed to the handbook is impressive with leading figures such as Bryan S Turner John R Hall Gianfranco Poggi and Craig Calhoun among the contributors to a book that covers areas as diverse as post colonial historiography and the historical sociology of the city the handbook fills a void within the sizable literature on historical sociology and undoubtedly will be a useful addition to graduate reading lists The British Journal of Sociology What is important in historical sociology What are the main routes of development in the subject This Handbook consists of 26 chapters on historical sociology It is divided into three parts Part One is devoted to Foundations and covers Marx Weber evolutionary and functionalist approaches the Annales School Elias Nelson and Eisenstadt Part Two moves on to consider major approaches such as modernization approaches late Marxist approaches historical geography institutional approaches cultural history intellectual history postcolonial and genealogical approaches The third part is devoted to the major substantive themes in historical sociology ranging from state formation nationalism social movements classes patriarchy architecture religion and moral regulation to problems of periodization and East West divisions Each part includes an introduction that summarizes and contextualizes chapters A general introduction to the volume outlines the current situation of historical sociology after the cultural turn in the social sciences It argues that historical sociology is deeply divided between explanatory sociological approaches and more empirical and interpretative historical approaches Systematic and informative the book offers readers the most complete and authoritative guide to historical sociology

A Dictionary of Sociology John Scott, 2014 Coverage is extensive and includes terms from the related fields of psychology economics anthropology philosophy and political science Provided by publisher Human Hierarchies

Melvyn L. Fein, 2017-09-08 Human beings are hierarchical animals Always and everywhere people have developed social ranking systems These differ dramatically in how they are organized but the underlying causal mechanisms that create and sustain them are the same Whether they are on the top or bottom of the heap people attempt to be superior to some other persons or group This is the root of Melvyn L. Fein's thesis presented in *Human Hierarchies: A General Theory* Fein traces the development of changes from hunter-gatherer times to our own techno-commercial society In moving from small to large communities humans went from face-to-face contests for superiority to more anonymous and symbolic ones Societies evolved from hunting bands where the parties knew each other through big men societies chieftainships agrarian empires patronage chains caste societies estate systems and market-oriented democracies Where once small groupings were organized primarily by strong forces such as personal relationships the now standard large groupings are more dependent on weaker forces such as those provided by social roles Bureaucracies and professional roles have become prominent Bureaucracies allow large-scale organizations to maintain control of people by limiting the potential destructiveness of unregulated tests of strength and by clarifying chains of command Their rigidity and unresponsiveness requires that they be supplemented by professional roles At the same time a proliferation of self-motivated experts delegate authority downward thereby introducing a more flexible decentralization This analysis is a unique and significant advance in both the sociology and anthropology of stratification among humans

Race and Morality Melvyn L. Fein, 2012-12-06 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture-perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn't I after all a tenured professor who didn't need to make a fuss in order to retain his job Didn't it make sense to just kick back and enjoy the easy life I had earned The topic of our tête-à-tête was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correctness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaranteed that some people would perceive me as a

dangerous scoundrel who had to be put in his place

Marx and Haiti Wulf D. Hund, 2025-01-31 Although modern racism was fully developed by their time Marx and Engels did not engage in a theoretical discussion of its essential features This analytical silence is investigated in the chapter *Marx and Haiti: Notes on a Blank Space* At the same time the chapters of this volume demonstrate that and why the principles of a historical materialist analysis of society present links for a critical theory of racism In the chapter *Dehumanization and Social Death: Fundamentals of Racism* this is shown concerning the various historical shapes of racisms caused by different forms of class relations The chapter *Racism's Birth of a Concept* connects the conceptual history of racism with the socio-historical conflicts of differently affected social groups Finally the

chapter A Historical Materialist Theory of Racism Introduction addresses basic elements of a Marxist analysis of racism It elucidates the necessity of a theoretical conjunction of classist and racist discrimination as well as the historical differentiation of racisms

The Global Transformation Barry Buzan, George Lawson, 2015-02-05 This book shows how the political economic military and cultural revolutions of the nineteenth century shaped modern international relations

Dark Skies Daniel Deudney, 2020-03-02 Dark Skies provides the first comprehensive and balanced assessment of the space enterprise past present and future It demolishes widely held optimistic assumptions about the desirability of many major space activities actual and prospective Most consequentially the hiding in plain sight use of outer space as a corridor for long range bombardment has increased the probability of catastrophic nuclear war Contrary to the widespread claim that sustainable colonies on other celestial bodies are necessary for human survival from large scale disasters on Earth Dark Skies shows that colonization itself poses many severe threats and should be avoided Instead an Earth oriented space program should be pursued

Jews and Blacks in the Early Modern World Jonathan Schorsch, 2004-04-12 This book offers the first in depth treatment of Jewish images of and behavior toward Blacks during the period of peak Jewish involvement in Atlantic slave holding

Post-Liberalism Melvyn L. Fein, 2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history s lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion
