Watts, 1999 The first book on the diversity distribution conservation and history of birds in the Magnolia State **The Great Naturalists** Robert Huxley, 2019-09-24 The story of natural history as seen through the lives observations and discoveries of the world s greatest naturalists We owe a debt of gratitude to the naturalists who described experimented collected and gave us the means to understand the natural world They came from all over the globe from classical times to the end of the nineteenth century when natural history changed from a mainly amateur pursuit to today s specialized scientific profession Braving dangers including storms pirates and disease in pursuit of cataloging the natural world pioneers such as Alexander von Humboldt and Charles Darwin changed the course of science with their groundbreaking theories This book includes many naturalists who are well known such as the earliest great natural historian Aristotle Carl Linnaeus the man who brought order to nature the ornithologist and painter John James Audubon and Georges Cuvier who established the concept of extinction Others are now given their rightful place Antony van Leeuwenhoek who made his own microscopes and discovered bacteria and Mary Anning the princess of paleontology who had an amazing self taught talent for finding fossils Many of these people were great artists as well as scientists and *The Great Naturalists* is illustrated with a selection of beautiful and precise paintings and drawings of birds animals fossils fish shells and rocks from the unparalleled collections of the Natural History Museum London **Naturalists of the Frontier [Second Edition]** Dr. Samuel Wood Geiser, 2018-03-12 This acclaimed study of the history of scientific exploration in the Southwest from renowned biologist Dr Samuel Wood Geiser first published in its present revised edition in 1948 would be of interest to many types of readers For those who love stories of adventure and struggle it narrates the lives and varying fates of men who lived under strange and difficult conditions and who met those conditions some with heroic resolution and resourcefulness some with fainting and failure many with a mixture of both These lives are presented not in the style of the popular semi fiction of the day but with such accuracy as only a thorough study of many sorts of records makes possible yet too with sympathy and insight into human nature throughout For those interested in frontier life and frontier stories this book presents an unwonted aspect of that life the struggle for culture and for science under frontier conditions a struggle no less heroic than that of the fighting pioneer *Naturalists of the Frontier* realistically portrays the hard material conditions of frontier life yet these are illumined by the ideals of the men who subdued those conditions The student of the early history of the Southwest and particularly of Texas will find here presented unusual and significant aspects of that history For the historian of science this book pictures the beginnings of science in a new country it shows what science must be under frontier conditions an examination of the resources of the region rather than a study of underlying problems **The Pioneer Explorers of New Zealand** John Rawson Elder, 1929 California's Frontier Naturalists Richard G Beidleman, 2006-03-02 This book chronicles the

Beidleman's engaging and marvelously detailed narrative describes these botanists, zoologists, geologists, paleontologists, astronomers, and ethnologists as they camped under stars and faced blizzards, made discoveries, and amassed collections, kept journals, and lost valuables, sketched flowers and landscapes, recorded comets, and native languages. He weaves together the stories of their lives, their demanding fieldwork, their contributions to science, and their exciting adventures against the backdrop of California and world history. *California's Frontier Naturalists* covers all the major expeditions to California as well as individual and institutional explorations, introducing naturalists who accompanied boundary surveys, joined federal railroad parties, traveled with river topographical expeditions, accompanied troops involved with the Mexican War, and made up California's own geological survey. Among these early naturalists are famous names: David Douglas, Thomas Nuttall, John Charles Fremont, William Brewer, as well as those who are less well known, including Paolo Botta, Richard Hinds, and Sara Lemmon. **Pioneer Humanists** John Mackinnon Robertson, 1907.
