Manchester minds Stuart Jones,2024-09-03 A bicentennial celebration of brilliant thinkers from The University of Manchester s history The year 2024 marks two centuries since the establishment of The University of Manchester in its earliest form The first of England s civic universities Manchester has been home and host to a huge number of influential thinkers and generated world changing ideas This book presents a rich account of the remarkable contribution that people associated with The University of Manchester have made to human knowledge A who s who of Manchester greats it presents fascinating snapshots of pioneering artists scholars and scientists from the poet and activist Eva Gore Booth to the economist Arthur Lewis the computer scientist Alan Turing and the physicist Brian Cox **Hegel and the Philosophy of Nature** Stephen Houlgate,1998-01-01 Confirms that Hegel s philosophy of nature continues to have great significance for our understanding of the natural world Thomistic Metaphysics Charles A. Hart,2023-02-15 One of the major objectives of this book is to make Thomistic metaphysics an inquiry into the act of existing the act of to be exercised by all beings to some degree more understandable to the man of ordinary intellectual training Therefore the various problems of metaphysics and

their solutions are presented in the simplest terms possible with special emphasis on their significance for the contemporary mind

The Revelation of Nature Paul Matthews, 2017-07-05 This title was first published in 2001 The Revelation of Nature embraces pragmatism aesthetics and metaphysics in an effort to narrate a fundamental relationship between the contemporary world and the natural source and site for any world of meaning Beginning with an exploration of Heidegger's seminal insight into the way we exist that human existence must be understood in its everydayness Matthews links these ideas to Heidegger's interpretation of the development of Western history in terms of its grounding metaphysical determinations to do with truth reality and the nature of things Matthews concludes that our everyday lives are informed and shaped by intellectual precepts and normative modes of behaviour that promote the combination and enslavement of both nature and ourselves within a mass technological grid This book breaks new ground in theology without underpinning the analysis with a particular religious viewpoint

Goddess as Nature Paul Reid-Bowen, 2016-04-15 Goddess as Nature makes a significant contribution to elucidating the meaning of a female and feminist deity at the beginning of the twenty first century Bridging the gap between the emergent religious discourse of thealogy discourse about the Goddess and a range of analytical concerns in the philosophy of religion the author argues that thealogy is not as incoherent as many of its critics claim By developing a close reading of the reality claims embedded within a range of thealogical texts one can discern an ecological and pantheistic concept of deity and reality that is metaphysically novel and in need of constructive philosophical theological and scholarly engagement Philosophical thealogy is in an age concerned with re-conceiving nature in terms of agency chaos complexity ecological networks and organicism both an active possibility and a remarkably valuable academic feminist and religious endeavour

Narrating Nature: Zapatista Encounters and the Remaking of Human-Environmental Relations Beatriz Lopes Cerqueira, 2024-11-17 This book focuses on the stories of Zapatistas as new ecological subjects The Zapatistas have been extensively studied as a movement with a specific political consciousness derived from historical marginalizing land policies in Mexico that propelled the creation and rise of the movement and later their autonomy project However these factors have also been involved in the formation of their particular ecological consciousness By focusing on the Zapatista case specifically on the stories of the Tzotzil people of Chiapas this book contributes to a deeper understanding of the existence and importance of alternative and more caring ways of thinking of and relating to nature This teaches us the possibility of human nature relations that defy the dominant logic based on the capitalist exploitative discourse that continues to promote the destruction of the planet and its peoples In the light of increasing environmental degradation and the climate crisis among others and the intertwined augmented pressures on the global population's well-being human Nature relationships have become a topical issue These relationships are intrinsically politico-ecological currently shaped by capitalist modernity that functions based on extractivism Therefore it is imperative to shift towards more caring human Nature relationships which are being developed in and through political counter-movements Taking the Zapatista movement

as an example this book explores other ways of thinking and acting towards Nature that allows for the development of non exploitative human Nature relationships It follows the argument that the Zapatista fight is a politico ecological one in which the movement s political aims and decisions are grounded in a Mayan derived indigenous worldview of Nature and in their influence in defining more caring human Nature relationships and that therefore their fight is also expressed through the ways they put these relationships in practice particularly in their ways of doing agriculture through agroecology based on values such as care respect and democracy In turn these help to guarantee not only their resistance to the dominant extractivist system but also their autonomy the main aim of the civil part of the Zapatista movement

Nietzsche on Mind and Nature Manuel Dries,P. J. E. Kail,2015-07-09 This volume presents new essays exploring important aspects of Nietzsche s philosophy in connection with two major themes mind and nature A team of leading experts address questions including What is Nietzsche s conception of mind How does mind relate with the rest of nature And what is Nietzsche s conception of nature They all express the thought that Nietzsche s views on these matters are of great philosophical value either because those views are consonant with contemporary thinking to a greater or lesser extent or because they represent a rich alternative to contemporary attitudes The essays engage with Nietzsche s metaphysics his philosophy of mind in light of contemporary views the question of panpsychism in Beyond Good and Evil 36 the rejection of dualism in favour of monism in particular a monism of value Nietzsche s positions on consciousness and embodied cognition in light of recent cognitive science a conception of freedom and agency based on an intrinsically motivating embodied sense of self efficacy a Nietzschean account of valuing understood as drive induced affective orientations of which an agent approves the idea of ressentiment conceived as a process of intentional not reflectively strategic self deception about one s own conscious mental states and a defence of a Nietzschean naturalism

The Classic and Creativity Jiang Zhuyu,2025-09-04 This book explores the complex dialectical interplay between the classic and creativity through a unique comparative lens that bridges Chinese and Western literary traditions The interplay between the classic and creativity has been a fundamental question in literary criticism although readers may be more familiar with discussions from the Western literary tradition such as T S Eliot s seminal essay Tradition and the Individual Talent In this comparative study the author examines the parallel discussions in both Chinese and Western literary traditions highlighting the inherently dialectical relationship between classics and creativity She introduces the rich traditions of poetry and poetics from ancient China to modern times equally illuminating is her commentary on Western literary critics such as Alexander Pope William Wordsworth T S Eliot and Oscar Wilde Her engagement with literary works such as Shakespeare s The Tempest and the Book of Poetry and with literary practices such as adaptation and commentary is also remarkable as she addresses the contemporary challenges of studying the classics in an age of world literature Clear and accessible this work in East West comparative poetics will be valuable to scholars and students of literary theory comparative literature and world literature
