Spectacular Nature Susan G. Davis, 2023-09-01 This is the story of Sea World a theme park where the wonders of nature are performed marketed and sold With its trademark star Shamu the killer whale as well as performing dolphins pettable sting rays and reproductions of pristine natural worlds the park represents a careful coordination of shows dioramas rides and concessions built around the theme of ocean life Susan Davis analyzes the Sea World experience and the forces that produce it the theme park industry Southern California tourism the privatization of urban space and the increasing integration of advertising entertainment and education The result is an engaging exploration of the role played by images of nature and animals in contemporary commercial culture and a precise account of how Sea World and its parent corporation Anheuser Busch succeed Davis argues that Sea World builds its vision of nature around customers worries and concerns about the environment family relations and education While Davis shows the many ways that Sea World monitors its audience and manipulates animals and landscapes to manufacture pleasure she also explains the contradictions facing the enterprise in its campaign for a positive public identity Shifting popular attitudes animal rights activists and environmental laws all pose practical and public relations challenges to the theme park Davis confronts the park's vast operations with impressive insight and originality revealing Sea World as both an industrial product and a phenomenon typical of contemporary American culture *Spectacular Nature* opens an intriguing field of inquiry the role of commercial entertainment in shaping public understandings of the environment and environmental problems This is the story of Sea World a theme park where the wonders of nature are performed marketed and sold With its trademark star Shamu the killer whale as well as performing dolphins pettable sting rays and reproductions of pristine natural worlds t Nature Magazine Percival Sheldon Ridsdale, Arthur Newton Pack, 1924 An illustrated monthly with popular articles about nature

Connecting with Nature Robert Cyril Stebbins, 2012 One of my earliest memories is of a warm day a field with many grasshoppers a shallow creek with cold water and the joy of a day in the hills with my parents My dad had gone fishing and I was free to wander about nearby It was summer in the Gray Pines foothills of the Sierra Nevada near Chico California where I was born Along the creek I found a turtle I had hoped someday to have one as a pet I ran with the wondrous creature cradled in my hands to show my mom I was enthralled with its bright eyes the feel of its claws and its cold body as it struggled to free itself from my grasp So began a lifetime of connecting with nature And so begins this amazing book an irresistible story of how one child fell in love with nature and your students can too Taking what he calls a nature centred worldview author Robert Stebbins blends activities examples and stories with his perspectives on the importance of dealing objectively yet compassionately

with social and environmental problems As thought provoking as it is charming Connecting With Nature includes discussions of ecological illiteracy and the impediments that keep people young and old from bonding with nature recommendations for establishing a nature centred educational program and encouraging interest in nature at home advice on doing accurate observations and field reports and understanding natural selection and a captivating array of activities to capture the attention of students of all ages imitating animal sounds quieting lizards tracking animals photographing birds and playing hide and seek with owl calls Even a quick glance through Connecting With Nature will make you wish you could give your students the joy of a day in the hills with the author Failing that you can use his book to instill a love of nature in your students and rekindle it in yourself *Nature's Keepers* Bill Birchard, 2005-02-18 With more than 3.7 billion in assets and annual revenue of 800 million the Nature Conservancy has generated staggering growth that would be the envy of any business Incorporated in 1951 by a small circle of concerned ecologists the Conservancy has grown financially into the world's largest environmental organization It has one million members up from 500 000 in 1990 and 3 500 employees operating in 50 states and 28 countries across the world Nature's Keepers offers readers an inspirational leadership tale and management chronicle as it goes behind the scenes and details the inner workings of the Nature Conservancy Highlighting the efforts of nine extraordinary leaders Nature's Keeper examines the organization's culture and management strategy and decisions and courageous and ingenious individuals who have dedicated their lives to conservation Author Bill Birchard reveals how the Conservancy's sometimes controversial business practices entrepreneurial approaches to preserving ecosystems while meeting human needs have earned the praise of management gurus such as Peter Drucker The Conservancy's way of operating though not free of failings is both widely emulated in the nonprofit community and greatly respected by business scholars and CEOs nationwide **Nature Guiding** William Gould Vinal, 1926 **Animism in Contemporary Japan** Shoko Yoneyama, 2018-11-09 Postmodern animism first emerged in grassroots Japan in the aftermath of mercury poisoning in Minamata and the nuclear meltdown in Fukushima Fusing critiques of modernity with intangible cultural heritages it represents a philosophy of the life world where nature is a manifestation of a dynamic life force where all life is interconnected This new animism it is argued could inspire a fundamental rethink of the human nature relationship The book explores this notion of animism through the lens of four prominent figures in Japan animation film director Miyazaki Hayao sociologist Tsurumi Kazuko writer Ishimure Michiko and Minamata fisherman philosopher Ogata Masato Taking a biographical approach it illustrates how these individuals moved towards the conclusion that animism can help humanity survive modernity It contributes to the Anthropocene discourse from a transcultural and transdisciplinary perspective thus addressing themes of nature and spirituality whilst also engaging with arguments from mainstream social sciences Presenting a new perspective for a post anthropocentric paradigm Animism in Contemporary Japan will be useful to students and scholars of sociology anthropology philosophy and Japanese Studies **Nature**, 1889 *The Culture of Nature*

Alexander Wilson, 1991 In this celebrated work Alexander Wilson examines environments built over the past fifty years as humans have continued to discover exploit protect restore and sometimes re enchant a natural world in convulsion
