Глобалистика в системе современного научного знания

[\[Печать \]](#)

Автор: Чумаков А.Н.

15.06.2013 г.

В системе современного научного знания глобалистика занимает особое положение. Она не похожа ни на одну из конкретных дисциплин, так как возникла на стыке естественных, гуманитарных, прикладных наук и является интегративным знанием о социоприродных процессах и проблемах, границы которых заданы масштабом планеты. В отличие от отдельных наук, занимающихся тем или иным аспектом или фрагментом реальности, глобалистика нацелена на решение комплексных, жизненно важных для всего человечества задач, справиться с которыми можно только на пути междисциплинарного взаимодействия, в котором особая роль отводится философии.

Global Studies occupy a specific place in the system of contemporary academic knowledge. They do not resemble any other clearly defined discipline because they have emerged at the meeting point of natural, humanitarian and applied sciences. They are integrative knowledge on socio-natural processes and problems of planetary significance. Unlike separate disciplines dealing with this or that fragment of reality, global studies are aimed at solving complex task, being extremely important for humanity as a whole. These tasks can only be solved through interdisciplinary research with a specific role for philosophy.

КЛЮЧЕВЫЕ СЛОВА: глобалистика, наука, научное направление, глобализация, глобальные проблемы, философия, междисциплинарность.

KEY WORDS: global studies, science, discipline, globalization, global problems, philosophy, interdisciplinarity.

История вопроса

Журнал «Вопросы философии» был одним из первых в отечественной периодике, на страницах которого глобальная проблематика получила широкое обсуждение в режиме «круглых столов» и специальных публикаций. Подчеркивая «необходимость концентрации и координации всего комплекса исследований по глобальной и системной проблематике, проводимых в нашей стране», журнал уже на ранних этапах становления глобалистики поставил своей задачей «привлечь внимание широкой философской общественности к разработке данной проблематики и поднять ее на новый уровень обсуждения»[1]. Тогда же журнал открыл специальную рубрику «Глобальные проблемы современности: социально-философские и методологические аспекты», где эта тематика активно анализировалась с различных сторон известными учеными, такими как И.Т. Фролов, П.Л. Капца, Д.М. Ганшина, Н.Н. Герасимов, В.А. Энгельгардт, Н.Н. Моисеев, В.В. Загладин, Б.Ц. Урланис, В.А. Лось и многим другим. В последующем журнал неизменно обращался к глобальной проблематике, о чем можно судить, в том числе, по публикациям последних лет[2], однако и сегодня ряд принципиальных вопросов все еще остается предметом разногласий и серьезных дискуссий. К числу таковых относятся вопросы о статусе и месте в системе научного знания глобалистики, а также основной объект ее исследования – глобализация, сопряженная с множеством позитивных и негативных последствий.

Источники нового научного направления

Кратко глобалистичку можно определить как междисциплинарную область научных исследований, направленная на выявление сущности глобализации, причин ее возникновения и
