**Monthly Catalog of United States Government Publications** ,1964     *Australian Fisheries* ,1990     **Sea Fishing** John Bickerdyke,1895     **Rulers of the Sea** John Nash,2023-12-04 This is a study of sea power and maritime strategy in the Classical Greek world More than just a study of navies and battles it examines how the sea was used to influence events ashore and how the use of naval power combined with land power had a defining impact on the period After an examination of the oft overlooked practical issues of navigation and administration the book explores the idea of a maritime consciousness in Greece and how this shaped the way the Greeks engaged in war Naval operations from the Persian Wars down to the rise of Thebes are examined at the operational and strategic level including a catalogue of the hundreds of different maritime operations from the 5th and 4th centuries BCE Further while the great sea power Athens is most prominent it looks at other city states to examine how they utilised sea power This new approach uses modern theory to highlight some enduring lessons of sea power It demonstrates that Classical scholars should embrace sea power as an important concept in the Greek world Modern scholars of naval and strategic studies should cast their gaze further back in time when looking for lessons in sea power This book helps to bridge the scholarship between these two disciplines     *Commercial Fisheries Review* ,1955

*Mare Plasticum - The Plastic Sea* Marilena Streit-Bianchi,Margarita Cimadevila,Wolfgang Trettnak,2020-07-23 This book written by a multidisciplinary team of authors comprising scientists artists and communicators explores one of the most pressing issues of our time the menace plastics pose to marine environments and organisms It takes readers on a journey that begins on the beaches of Galicia where the beach litter formed the starting point for an exhibition that combines art and science to alert the audience to the urgent need for action The journey culminates with a short plastic story which reveals a disturbing vision of the future significance of plastics for humans and an example of how comics can deliver information to a younger audience Along the way there is plenty of fascinating science such as insights into the impacts of plastics and microplastics the new marine ecosystem known as the plastisphere and the current status of the oceans from the Arctic to the Mediterranean The book also explores the historical developments sustainable solutions including the use of circular economy methodologies and protective measures like those being tried in China and the Far East Lastly it describes the role played by rivers as transport vectors for plastic with special reference to the Danube and to complete the picture since most of the plastic is of terrestrial origin it investigates problems related to microplastics in soils
