A Study of Strategic Lessons Learned in Vietnam: Conduct of the war. 2 pts. in 3 ,1981 **Narrative of the Mission to Russia, in 1866, of the Hon. Gustavus Vasa Fox, Assistant-secretary of the Navy** Joseph Florimond duc de Loubat,1879 *Narrative of the Mission to Russia, in 1866* Joseph Florimond Loubat,1878 *Narrative of the Mission to Russia, in 1866, of the Hon. Gustavus Vasa Fox, from the Journal and Notes. Ed. by John D. Champlin J F Loubat,1873*
Narrative of the Mission to Russia, in 1866 Anonymous,2023-07-12 Reprint of the original first published in 1873 *The Royal Navy and Nuclear Weapons* Richard Moore,2018-12-07 This work examines British thinking about nuclear weapons in the period up to about 1970 looking at the subject through the eyes of the Royal Navy in the belief that this can offer new insights in this field The author argues that the Navy was always sceptical about nuclear weapons both on practical grounds and because of wartime and pre war experiences He suggests that this scepticism can teach us a good deal about military technological innovation in general **The British Pacific Fleet Experience and Legacy, 1944-50** Jon Robb-Webb,2016-03-16 The British Pacific Fleet was formed in October 1944 and dispatched to fight alongside the USN in the Central Pacific under Admiral Nimitz Deploying previously unpublished documents this book reveals how relations between the UK and US forces developed from a starting point of barely repressed suspicion to one where both navies came to understand each other and eventually find a remarkable bond Born out of a shared experience of Kamikaze attacks extended operations against bitterly hostile shores the pooling of knowledge and experience the two navies underpinned the diplomatic moves in both Washington and London The book carries the legacy of this experience through to the next Anglo American participation in war Korea It illustrates and explains how and why certain lessons were incorporated into the composition behaviour and structure of the post war Navy It demonstrates the significance of what was learned from the USN by the RN and by USN from the RN As well as examining the background to the largest fleet the Royal Navy ever put to sea the book also charts its effects on Anglo American relations multinational operations alliance building and the ways naval forces are shaped by and in turn shape politics It addresses a period of rapid technological development that witnessed profound changes in the international system and which raised fundamental questions of what navies were for and how should they operate and organize themselves In so doing the study illustrates how the experience of a few long months at the end of the war in the Pacific would cast a long shadow over these issues in the very different circumstances of the post war world American Monthly Review of Reviews Albert Shaw,1893 **Maritime Strategy for Medium Powers** Rear Admiral J.R. Hill,2021-05-30 This book first published in 1986 argues that there is a special category of medium powers in the world such as Britain France India Brazil Japan China and others which have sufficient military power to do something to protect their interests but which are not a match for the superpowers It surveys the whole range of naval warfare equipment operations organisation and deployment and discusses how each item should be tailored by the recognition of the position of

the medium power It considers alliances a key element for medium powers and explores how these should be handled and what use they may be expected to fulfil The book argues that the concept of medium power here developed thoroughly for the first time will be extremely useful to many countries in defining their strategic role in a purposeful way **The Popular History of England from the Earliest Times to the Year 1848** Philip Smith,1883 *Intrepid Warriors* Bernd Horn,2007-11-15 Issued also in French under title *Les guerriers intrepides* **The Intelligence War in Latin America, 1914-1922** Jamie Bisher,2016-03-07 World War I did not bypass Latin America Within days of the war s outbreak European belligerents mobilized intelligence assets and secret diplomacy to compete for Latin America s allegiances and resources This intelligence war entangled all of the American republics and even Japan Dreary consular offices from the Rio Grande to the Straits of Magellan were abruptly thrust into covert activities trafficking in fugitives running contraband and conducting sabotage Revolutionary and counter revolutionary movements big oil international banks and businesses were also drawn in Drawing on long classified U S intelligence documents this narrative of the Latin American intelligence war reveals the complexity and chaos behind the placid veneer of wartime Pan America The author connects the dots between Mexico City Buenos Aires Guatemala City Lima Havana Santiago Rio de Janeiro Berlin London Washington Tokyo and dozens of safe houses front companies consulates legations and headquarters in between Scores of unrecognized veterans of the intelligence war are revealed **Sailor-Scholar** Barry D. Hunt,2006-01-01 Admiral Sir Herbert Richmond was a unique phenomenon in the Victorian Edwardian navy a professionally competent and successful officer who was also an intellectual writes the author This was enough to ensure that his progress would be stormy This thoroughly documented biographical study of Richmond s professional career reveals a fully experienced clear thinking officer with a profound understanding of naval history a restless and uncompromising personality and a passionate concern with naval strategy the art of war and the most effective training programme for officers Richmond persistently challenged the accepted practices and prejudices of the naval profession He and his small group of disciples the Young Turks found themselves in the thick of the most crucial controversies in the British Navy In spite of frequent official displeasure however Richmond became an influential naval historian and educator responsible for the creation of the modern naval staff and the Imperial Defence College The volume rests on extensive research in the official records and the private papers of Richmond and his close associates It will interest not only naval historians but also those with a general interest in the impact of one man s thought and actions on Britain s defence policy and the outcome of two World Wars **The Review of Reviews** William Thomas Stead,1902 *American Monthly Review of Reviews* ,1890 **The Wrens of World War II** Peter Hore,2021-09-29 The World War II codebreaking station at Bletchley is well known and its activities documented in detail Its decryption capabilities were vital to the war effort significantly aiding Allied victory But where did the messages being deciphered come from in the first place This is the extraordinary untold story of the Y service a secret even more closely guarded than Bletchley Park The Y service was the

code for the chain of wireless intercept stations around Britain and all over the world Hundreds of wireless operators many of them who were civilians listened to German Italian and Japanese radio networks and meticulously logged everything they heard Some messages were then used tactically but most were sent on to Station X Bletchley Park where they were deciphered translated and consolidated to build a comprehensive overview of the enemy s movements and intentions Peter Hore delves into the fascinating history of the Y service with particular reference to the girls of the Women s Royal Naval Service Wrens who escaped from Singapore to Colombo as the war raged only to be torpedoed in the Atlantic on their way back to Britain the woman who had a devastatingly true premonition that disaster would strike on her way to Gibraltar the Australian who went from being captain of the English Women s Cricket team to a WWII Wren to the head of Abbotleigh girls school in Sydney how the Y service helped to hunt the German battleship Bismarck in the North Atlantic and how it helped to torpedo a Japanese cruiser in the Indian Ocean Together these incredible stories build a picture of World War II as it has never been viewed before
