Thinking Theologically about Language Teaching Cheri L. Pierson, Will Bankston, 2017-08-31 Christians can often overlook the need to bring their daily vocations in accord with the reality created

sustained and purposed through Christ This is no less true for language teachers who find themselves at a difficult interdisciplinary crossroads where the paths of linguistics culture and education merge This challenge should not discourage these educators but instead aid them in their journey to form a pedagogy rooted in theological truths from Scripture one that provides a nuanced approach that glorifies God in a manner specific to the language classroom The contributors of this book outline why and how theology must inform teaching methods so that Christian language educators might better serve their students with both faith and excellence thereby pointing them to the communicative God whose image they bear Reading the Word of God in the Presence of God Vern S. Poythress, 2016-03-16 Biblical interpretation is typically viewed as concerned with understanding the human author's intended meaning However for Christians the Bible is first and foremost God's Word and must be understood in that light Helping Christians approach the Bible with God in mind this book sets forth a more nuanced approach to biblical interpretation that pays attention to both the human and divine origins of these sacred texts Whether it's reviewing the three basic steps of interpretation or emphasizing the importance of paying attention to the Christ centered character of both the Old and New Testaments this book is a much needed resource for the church as it wrestles to defend the authority of Scripture in our increasingly relativistic world **Essential Bible Study Tools for Ministry**

Professor David R. Bauer, 2014-03-18 This up to date highly selective bibliography is designed to acquaint students and ministers with major works significant publishers and prominent scholars in biblical studies It is the perfect guide for beginning a research project or building a ministerial library References are included based on the following considerations 1 usefulness for the theological interpretation of the Bible within the context of the faith of the church 2 significance in the history of interpretation and 3 representation of evangelical and especially evangelical Wesleyan scholarship
