Navigating In A Sea Of Change Perspectives On The Present Future Of Competitive Intelligence:

Navigating in a Sea of Change Neil J. Simon, Albert B. Blixt, 1996 *Managing Frontiers in Competitive Intelligence*

David L. Blenkhorn, Craig S. Fleisher, 2000-11-30 For specialists and nonspecialists alike this perceptive selection of the newest and up and coming tools and techniques of competitive intelligence offering a well balanced combination of theory and practice It shows how advances in computers and technology have accelerated progress in CI management and the ways in which CI has affected and been affected by all major business functions and processes It explores applications to organizations of various sizes and types in both the public and private sectors Editors Fleisher and Blenkhorn link leading edge research in CI to advances in current practice and balance pragmatic against conceptual concerns Analysts strategists and organizational decision makers at higher levels will find the book especially valuable as they seek to make sense of the business environment and assess their organizations evolving dynamic places in it The pace of change in today s global competitive economy is greater than at any time in recorded history Thus as never before companies need better tools for business and competitive analysis The book surveys applications of CI that are critical to business processes such as mergers and acquisitions and to evolving industries such as biotechnology They focus on how push and pull Internet technologies affect data gathering and analysis and how CI can be managerially assessed using multiple evaluative approaches unavailable until now in the public domain They then turn to the future and lay out some startling yet plausible viewpoints on what the next frontiers of competitive intelligence will be and how organizations can and must ready themselves for them

Measuring the Effectiveness of Competitive Intelligence Jan P. Herring, 1996 **From Knowledge to Intelligence**

Helen N. Rothberg, G. Scott Erickson, 2005 In the New Economy intelligence will be essential for firms to gain competitive advantage not just information or knowledge Competitive intelligence or the strategic gathering of knowledge about competitors climate trends new products has a long and successful history of generating competitive advantage In this book Rothberg and Erickson demonstrate how corporations can combine their competitive intelligence gathering with their internal knowledge management gathering into one dynamic system Using real world cases from the corporate world the authors show how the strategic use of this combined system generates measurable competitive advantage Topics covered include how to develop your strategy for sharing and gathering knowledge across the value chain sustainable product development and innovation manufacturing improvement CRM and marketing and developing a corporate wide global knowledge strategy **L'intelligence économique et stratégique dans les entreprises françaises** Frank
