The Baker Illustrated Guide to Everyday Life in Bible Times John A. Beck, 2013-09-15 The authors of the Bible routinely employed mention of manners and customs from the ancient world in their inspired writing fully intending that the Lord would change readers with these images But modern readers often miss the full literal and figurative meaning of biblical imagery due to the distance in time and experience between the world of today and the world of the Bible This fully illustrated guide aims to restore clarity and vitality to these portions of God's Word in order to help readers grasp the full meaning of Scripture For example the entry on anointing defines the nature of this act and the connotations associated with it before illustrating how the biblical authors use the act of anointing in their communication with us communication that reaches its full maturity in Jesus the Anointed One Understanding manners and customs like anointing enriches our experience of reading the Bible and even helps us correctly interpret it This colorful guide clearly and succinctly introduces modern readers to daily life in Bible times The cultural practices of the past are fascinating on their own but even more so as they help us grasp the full meaning of Scripture

Holt, Hyun Chul Paul Kim, 2015-02-26 Isaiah Jeremiah and Ezekiel share much in common They address the pivotal times and topics associated with the last stages of the monarchical history of Israel and with the development of new forms of communal and religious life through exile and beyond One important structural component of all three books is a substantial section which concerns itself with a range of foreign nations commonly called the Oracles against the Nations which form the focus of this book These chapters together present the most up to date scholarship on the oracles an oft neglected but significant area in the study of the prophetic literature The particular characteristics of Isaiah Jeremiah both Masoretic Text and Septuagint versions and Ezekiel are discussed showcasing the unique issues pertinent to each book and the diverse methods used to address them These evident differences aside the Oracles Against the Nations are employed as a springboard in order to begin the work of tracing similarities between the texts By focusing on these unique yet common sections a range of interrelated themes and issues of both content and method become noticeable for example though not exhaustively pattern structure language comparative history archaeology sociology politics literature imagery theme theology and hermeneutical issues related to today's context As a result this collection presents a range of cutting edge approaches on these key prophetic books and will provide a basis for further comparative study and reflection **A Manual of Sumerian Grammar and Texts (Third, revised and expanded edition)** John Hayes, 2019-12-31 This is an introductory pedagogical grammar designed for readers with no previous knowledge of Sumerian It can be used with or without a teacher A general description of Sumerian is followed by a series of 30 graduated lessons each including a sign list and vocabulary cuneiform texts transliteration transcription and translation Tobit Robert Littman, 2008-12-31 Tobit is one of the Apocrypha a collection of books rejected from their canon by the Jews but accepted by some of the Christian church fathers Ever since the 4th century CE commentaries have been written on Tobit The original Hebrew and Aramaic versions of Tobit were lost until fragments were discovered as part of the Dead Sea Scrolls in 1947 The present work is the first Greek text and commentary of Tobit to be published since the publication of the Hebrew and Aramaic fragments This edition contains the text from two fourth century CE manuscripts the Codex Sinaiticus long version and Codex Vaticanus short version as well as a translation into English and a commentary **Archaeology of Symbols** Guido Guarducci, Nicola Laneri, Stefano Valentini, 2024-04-30 These case studies offer new approaches to the analysis and interpretation of symbols in a variety of media and as expressed on a range of objects at different scales This third volume in the Material Religion in Antiquity series stems from the First

International Congress on the Archaeology of Symbols ICAS I that took place in Florence in May 2022 The archaeological process of reconstructing and understanding our past has undergone several reassessments in the last century producing an equal number of new perspectives and approaches The recent materiality turn emphasizes the necessity to ground those achievements in order to build fresh avenues of interpretation and reach new boundaries in the study of the human kind and its ecology Symbols must not be conceived only as allegory but also and perhaps mainly as reason *raison d'être* and meaning culture They may be considered key elements leading to interpretation not only in their physical manifestation but by being infused with the gestures beliefs and intentions of their creators created in a specific context and with a specific *chaîne opératoire* In this volume a variety of case studies is offered representing disparate ancient cultures in the Mediterranean and central Europe and the Near East The thread that connects them revolves around the prominence of symbols and allegorical aspects in archaeology whether they are considered as expressions of iconographic evidence material culture or ritual ceremonies seen from a multicultural perspective This and subsequent ICAS volumes therefore aims to embrace all the different aspects pertaining to symbols in archaeology in a specific place allowing the reader to deepen their knowledge of such a fascinating and multifaceted topic by looking at it from a multicultural perspective
