Terras, 2018-10-04 How is academia portrayed in children s literature This Element ambitiously surveys fictional professors in texts marketed towards children Professors are overwhelmingly white and male tending to be elderly scientists who fall into three stereotypes the vehicle to explain scientific facts the baffled genius and the evil madman By the late twentieth century the stereotype of the male mad muddlehead called Professor SomethingDumb is formed in humorous yet pejorative fashion This Element provides a publishing history of the role of academics in children s literature questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children s media The Element is also available with additional material as Open Access The Read-Aloud Handbook Jim Trelease, 2006-07-25 A New York Times and million copy bestseller the classic handbook on reading aloud to children revised and updated Recommended by Dear Abby The New York Times and The Washington Post for three decades millions of parents and educators have turned to Jim Trelease s beloved classic to help countless children become avid readers through awakening their imaginations and improving their language skills Now this new edition of The Read Aloud Handbook imparts the benefits rewards and importance of reading aloud to children of a new generation Supported by delightful anecdotes as well as the latest research The Read Aloud Handbook offers proven techniques and strategies and the reasoning behind them for helping children discover the pleasures of reading and setting them on the road to becoming lifelong readers A to Zoo Rebecca L. Thomas, 2018-06-21 Whether used for thematic story times program and curriculum planning readers advisory or collection development this updated edition of the well known companion makes finding the right picture books for your library a breeze Generations of savvy librarians and educators have relied on this detailed subject guide to children s picture books for

all aspects of children's services and this new edition does not disappoint. Covering more than 18 000 books published through 2017 it empowers users to identify current and classic titles on topics ranging from apples to zebras. Organized simply with a subject guide that categorizes subjects by theme and topic and subject headings arranged alphabetically, this reference applies more than 1 200 intuitive as opposed to formal catalog subject terms to children's picture books, making it both a comprehensive and user-friendly resource that is accessible to parents and teachers as well as librarians. It can be used to identify titles to fill in gaps in library collections, to find books on particular topics for young readers, to help teachers locate titles to support lessons or to design thematic programs and story times. Title and illustrator indexes, in addition to a bibliographic guide arranged alphabetically by author name, further extend access to titles.

Teaching with Books that Heal Patricia L. Kolencik, Carianne Bernadowski, 2007-05-31 Help children learn coping skills through literature. This book answers the often-repeated question: Is there a children's book I can read in my classroom to give children insight into significant life events? Literature ideas and activities help students cope with real-life situations such as bullying that interfere with school. This book will assist educators in guiding and nurturing children's special issues and concerns with outstanding ready-to-go reading and writing lessons. This professional resource for K-6 educators and parents uses literature with identifiable characters to help children who are facing challenges in their lives. Like bullying, peer acceptance, peer pressure, and being different, as well as family situations such as death, divorce, adoption, and sibling rivalry.

Count Girls In Karen Panetta, Katianne Williams, 2018-08-01 Maybe you have a daughter who loves cooking, soccer, and musicals. Maybe she's a social butterfly, an athlete, a fashionista, and a humanitarian who wants to change the world. Be honest: do you think well she's clearly not a math and science kid? Do you assume that certain classes and careers won't appeal to her? **Count Girls In** challenges these assumptions and presents a totally different way of thinking: there is a place for all girls and young women, not just the science fair winners and robotics club members in science, technology, engineering, and math (STEM) fields. If we can keep their and our minds and options open and meet them where they are, to succeed in STEM fields today, girls don't have to change who they are. A girl who combines her natural talents, interests, and dreams with STEM skills has a greater shot than ever before at a career she loves and a salary she deserves. **Count Girls In** encourages parents and other adults to raise authentic young women who have the confidence to put STEM to work in a way that best serves them and their passions. The authors, both STEM professionals, present compelling research in a conversational, accessible style and provide specific advice and takeaways for each stage of schooling, from elementary school through college, followed by comprehensive STEM resources. This isn't a book about raising competitive test-acing girls in lab coats; this is about raising happy, confident girls who realize the world of opportunities before them.

Teaching Science Through Trade Books Christine Anne Royce, Karen Rohrich Ansberry, Emily Rachel Morgan, 2012 If you like the popular *Teaching Science Through Trade Books* columns in NSTA's journal *Science and Children* or if you've become enamored of the award-winning *Picture Perfect Science*

Lessons series you'll love this new collection. It's based on the same time-saving concept. By using children's books to pique students' interest, you can combine science teaching with reading instruction in an engaging and effective way. [Mindsets for Parents](#) Mary Cay Ricci, Margaret Lee, 2023-12-19. All parents want their children to be successful, but success is not just about giving your kids praise or setting them on the right direction. Research shows that success is often dependent on mindset. That's where the updated edition of [Mindsets for Parents](#) comes in. Designed to provide a roadmap for developing a growth mindset home environment, this book's conversational style and real-world examples make the popular mindsets topic approachable and engaging. It includes tools for informally assessing the mindsets of both parent and child, easy-to-understand updated brain research, brand-new examples and prompts for self-reflection, as well as suggested strategies and resources for use with children of any age. Also included in this updated edition are book club questions designed to get parent groups thinking and collaborating in order to make the most of these strategies. This book gives parents, guardians, coaches, caregivers, and anyone who works with children powerful knowledge and methods to help themselves and their children learn to embrace life's challenges with a growth mindset and an eye toward increasing their effort and success.

[Boost Your STEAM Program with Great Literature and Activities](#) Liz Knowles, Martha Smith, 2018-06-01. You've created a STEAM program in your library, but how do you work literacy into the curriculum? With this collection of resource recommendations, direction for program development, and activities, you'll have students reading proficiently in no time. Many schools and libraries are implementing STEAM programs in the school library makerspace to promote problem-solving by allowing students to create their own solutions to a problem through trial and error. In order to enhance literacy development in the STEAM program, however, they need resources for integrating literature into the curriculum. In this collection of resources for doing just that, veteran education professionals and practiced coauthors Liz Knowles and Martha Smith bring readers over eight hundred recommended and annotated books and web resources selected based on research on successfully integrating STEAM and literacy programs and organized by the five STEAM areas. Titles are complemented by discussion questions and problem-solving activities that will aid educators in both adding and using the best literature to their STEAM programs for encouraging learning. In addition to promoting literacy, these resources will help to develop creativity, lateral thinking skills, and confidence in students. **Thunder Paws and the Snowboard** Trish

Carpenter, 2019-04-06. Abigail loves to snowboard. Thunder Paws is Abigail's service dog and assists Abigail because she has autism. When Abigail's snowboard is taken, the story tells of ways her school friends show her kindness and help resolve the situation. [Notable Books, Notable Lessons](#) Andrea S.
