Russell Perkin, 2021-06-15 The 1970s in Britain saw a series of industrial disputes a referendum on membership in the European Economic Community conflict about issues of immigration and citizenship and emergent environmental and feminist movements It was also a decade of innovation in the novel and novelists often addressed the state of the nation directly in their works In *Politics and the British Novel in the 1970s* Russell Perkin looks at social novels by John Fowles and Margaret Drabble the Cold War thrillers of John le Carr Richard Adams's best selling fable *Watership Down* the popular campus novels of Malcolm Bradbury and David Lodge Doris Lessing's dystopian visions and V S Naipaul's explorations of post colonial

displacement Many of these highly regarded works sold in large numbers and have enjoyed enduring success a testament to the power of the political novel to explain a nation to itself Perkin explores the connections between the novel and politics situating the works it discusses in the rich context of the history and culture of the decade from party politics to popular television shows Politics and the British Novel in the 1970s elucidates a period of literary history now fifty years in the past and offers a balanced perspective on the age revealing that these works not only represented the politics of the time but played a meaningful role in them **Library Journal** ,1981-07 **Kurt Vonnegut and the American Novel** Robert T. Bowker Company. Department of Bibliography,R.R. Bowker Company. Publications Systems Department,1983 **Sigmund Freud's The Interpretation of Dreams** Laura Marcus,2024-06-04 Freud s The Interpretation of Dreams published in 1900 has been one of the most influential texts of the modern era fundamentally changing the ways in which people have thought about their waking lives as well as their dreams This book more than any other in Freud s massive oeuvre has shaped a vast amount of work in linguistics and semiotics literary studies film theory psychology philosophical hermeneutics and the history of ideas This influence is reflected in the editor s introduction which includes a substantial discussion of the theory and practice of representation and the six essays specially commissioned for this volume The contributors are renowned for their knowledge

of Freudian theory and for their interdisciplinary expertise in a wide range of fields They examine for example the relationship of Freud's text to theories of interpretation autobiography and literary production The book as a whole gives a clear sense both of the context of Freud's text and of its influence throughout the twentieth century This volume is an ideal introduction to Freud's work for students and teachers of English and other literatures philosophy and social and cultural studies as well as the wider audience concerned with psychoanalysis and its cultural ramifications **Motion Picture Almanac**, 1996 **Instructor's Manual to Accompany Literature, an Introduction to Fiction, Poetry, and Drama**, 2002 **Anti-Jacobin Novels, Part II, Volume 8** W M Verhoeven, Claudia L Johnson, Philip Cox, Adriana Craciun, Richard Cronin, 2017-09-29 A selection of Anti Jacobin novels reprinted in full with annotations The set includes works by male and female writers holding a range of political positions within the Anti Jacobin camp and represents the French Revolution American Revolution Irish Rebellion and political unrest in Scotland Lacan Reading Joyce Colette Soler, 2018-10-12 This book discusses Jacques Lacan's contribution to understanding the life and work of James Joyce introducing Colette Soler's influential reading to English readers for the first time Focusing on Lacan's famous Seminar on Joyce the reader will no doubt learn much from Lacan but also as Soler shows what Lacan learned from Joyce and what perhaps without him he would not have approached with so much confidence Le Sinthome This is the title Jacques Lacan chose for his seminar devoted to Joyce in 1975-76 He wrote the word sinthome in its original spelling from the Greek and thus used the technique so dear to Joyce the equivocation between the sound that is heard and the graphic representation that is seen Is it surprising that the author who recognised in 1956 with *The Agency of the Letter in the Unconscious* that the Freudian practice of speech revealed an unconscious that writes something Jacques Derrida found quite remarkable would end in 1975-76 with Joyce Lacan Reading Joyce will be of great interest to professional and academic readers in the respective fields of Lacan and Joyce studies including psychoanalysts in practice and training as well as researchers and students in psychoanalytic and modern literary studies *All Stories Are True* Tracie Church Guzzio, 2011-05-17 In *All Stories Are True* Tracie Church Guzzio provides the first full length study of John Edgar Wideman's entire oeuvre to date Specifically Guzzio examines the ways in which Wideman's 1941 engages with three crucial themes history myth and trauma throughout his career showing how they intertwine Guzzio argues that for four decades the influential African American writer has endeavored to create a version of the African American experience that runs counter to mainstream interpretations using history and myth to confront and then heal the trauma caused by slavery and racism Wideman's work intentionally blurs boundaries between fiction and autobiography myth and history particularly as that history relates to African American experience in his hometown of Pittsburgh Pennsylvania The fusion of fiction national history and Wideman's personal life is characteristic of his style which due to its complexity and smudging of genre distinctions has presented analytic difficulties for literary scholars Despite winning the PEN Faulkner award twice for *Sent for You Yesterday* 1984 and *Philadelphia Fire* 1990

Wideman remains understudied. Of particular value is Guzzio's analysis of the many ways in which Wideman alludes to his previous works. This intertextuality allows Wideman to engage his books in direct intentional dialogue with each other through repeated characters, images, folktales, and songs. In Wideman's challenging of a monolithic view of history and presenting alternative perspectives to it, and his allowing past, present, and future time to remain fluid in the narratives, Guzzio finds an author firm in his notion that all stories and all perspectives have merit. **Naming the Father** Eva Paulino

Bueno, Terry Caesar, William Hummel, 2000-01-01 *Naming the Father* is a collection of essays on the subject of fatherhood: its enduring power, its secret ruses, its unsettling provocations. Despite the considerable critical attention devoted to motherhood in literature and despite the late twentieth-century focus on patriarchy, there is surprisingly no comparable collection on fatherhood. This volume was born of the conclusion that critics of modern and contemporary literature may comprehend the father too little for presuming to have comprehended patriarchy so much. *Naming the Father* begins with a series of nonfiction essays that attempt to locate the missing father in the individual experiences of three scholars at various stages of their careers. The following thematically grouped sections recover and discuss fatherhood in fields ranging from Caribbean fiction to African American drama and in the work of authors as diverse as Rebecca West, Anzia Yezierska, William Burroughs, and Stephen Wright, as well as Henry James and James Joyce. A variety of critical approaches, from biographical to deconstructive, activate and engage with the cultural, national, and global implications of fatherhood for the family and for the future of literary studies. Scholars and students of contemporary literature, cultural studies, and gender studies will find this book a fascinating and invaluable collection. *Television Series as Literature* Reto Winckler, Víctor

Huertas-Martín, 2022-01-19 This book explores how television series can be understood as a form of literature, bridging the gap between literary and television studies. It goes beyond existing adaptation studies and narratological approaches to television series in both its scope and depth. The respective chapters address literary works, themes, tropes, techniques, values, genres, and movements in relation to a broad variety of television series, while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittell, and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology. The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields. By questioning the alleged divide between television series and works of literature, it contributes not only to a better understanding of television series and literary texts themselves but also to the development of interdisciplinary scholarship in the humanities.
