Daniel F McAuley

Oeuvres Complete Sarie 1 Volume 6:

Islands, Identity and the Literary Imagination Elizabeth McMahon, 2016-07-09 Australia is the planet's sole island continent. This book argues that the uniqueness of this geography has shaped Australian history and culture including its literature. Further, it shows how the fluctuating definition of the island continent throws new light on the relationship between islands and continents in the mapping of modernity. The book links the historical and geographical conditions of islands with their potent role in the imaginary of European colonisation. It prisms apart the tangled web of geography, fantasy, desire, and writing that has framed the Western understanding of islands, their real and material conditions, and their symbolic resonance from antiquity into globalised modernity. The book also traces how this spatial imaginary has shaped the modern man who is imagined as being the island's natural inhabitant or mirror. Importantly, the book challenges these habits of thought by their relocation within larger topological and imaginary visions from islanders themselves. [Arts & Humanities Citation Index](#), 1993 A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals and indexes individually selected relevant items from over 6,800 major science and social science journals. *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries, 1979 [Political Monsters and Democratic Imagination](#) Patrick McGee, 2016-09-08 *Political Monsters and Democratic Imagination* explores the democratic thought of Spinoza and its relation to the thought of William Blake, Victor Hugo, and James Joyce. As a group, these visionaries articulate a concept of power founded not on strength or might but on social cooperation, a principle of equality based not on the identity of individuals with one another but on the difference between any individual and the intellectual power of society as a whole, an understanding of thought as a process that operates between rather than within individuals, and a theory of infinite truth, something individuals only partially glimpse from their particular cultural situations. For Blake, God is the constellation of individual human beings whose collective imagination produces revolutionary change. In Hugo's novel, Jean Valjean learns that the greatest truth about humanity lies in the sewer or among the lowest forms of social existence. For Joyce, Leopold and Molly Bloom are everybody and nobody, singular beings whose creative power and truth is beyond categories and social hierarchies.
