Panorama des modèles et instances de la conservation et étude de quelques exemples philosophiques et poétiques de choix critiques et de leurs effets littéraires

Dilettantism and Its Values Richard Hibbitt, 2017-12-02 The concept of dilettantism has not always been associated with amateurism or superficiality. It played a significant role in French and German critical writing from the late eighteenth century until the fin de siècle embracing notions such as apprenticeship, fruitful error, parody, aestheticism and scepticism. Attempts to define dilettantism in a binary relationship with art have often been defeated by a fundamental ambivalence towards its values. The major texts on the subject are Goethe and Schiller's unfinished dilettantism project (1799) and Paul Bourget's essay on Ernest Renan (1882) although the term was also used by writers including Wieland, Baudelaire, Laforgue, Nietzsche, Hofmannsthal and Thomas Mann. In this wide-ranging study, Richard Hibbitt provides the first book-length comparative analysis of the concept of dilettantism, tracing its chronological development and proposing a synthesis of its diverse aspects and values.

The Documentary Imagination in Twentieth-Century French Literature Alison James, 2020-09-03 The Documentary Imagination in Twentieth-Century French Literature identifies a documentary impulse in French literature that emerges at the end of the nineteenth century and culminates in a proliferation of factual writings in the twenty-first. Focusing on the period bookended by these two moments, it highlights the enduring concern with factual reference in texts that engage either with current events or the historical archive. Specifically, it considers a set of ideas and practices centered on the conceptualization and use of documents. In doing so, it contests the widespread narrative that twentieth-century French literature abandons the realist enterprise and argues that writers instead renegotiate the realist legacy outside or at the margins of the fictional space of the novel. Analyzing works by authors including Gide, Breton, Aragon, Yourcenar, Duras and Modiano, the book defines a specific documentary mode of literary representation that records, assembles and investigates material traces of reality. The document is a textual, visual or material piece of evidence repurposed through its visual insertion, textual transcription or description within a literary work. It is a fact, but it also becomes a figure standing for literature's confrontation with the real. The documentary imagination involves a fantasy of direct access to a reality that speaks for itself. At the same time, it gives rise to concrete textual practices that open up new directions for literature by interrogating the construction and interpretation of facts.

Fallen Nature, Fallen Selves Michael Moriarty, 2006-05-25 From the late sixteenth to the late seventeenth centuries, French writing is especially concerned with analysing human nature. The ancient ethical vision of man's nature and goal we achieve fulfilment by living our lives according to reason, the highest and noblest element of our nature, survives even to some extent in Descartes. But it is put into question, especially by the revival of St Augustine's thought, which

focuses on the contradictions and disorders of human desires and aspirations Analyses of behaviour display a powerful suspicion of appearances Human beings are increasingly seen as motivated by self love they are driven by the desire for their own advantage and take a narcissistic delight in their own image Moral and religious writers re emphasize the traditional imperative of self knowledge but in such a way as to suggest the difficulties of knowing oneself Operating with the Cartesian distinction between mind and body they emphasize the imperceptible influence of bodily processes on our thought and attitudes They analyse human beings ignorance due to self love of their own motives and qualities and the illusions under which they live their lives Their critique of human behaviour is no less searching than that of writers who have broken with traditional religious morality such as Hobbes and Spinoza A wide range of authors is studied some well known others much less so the abstract and general analyses of philosophers and theologians Descartes Jansenius Malebranche are juxtaposed with the less systematic and more concrete investigations of writers like Montaigne and La Rochefoucauld not to mention the theatre of Corneille Moli re and Racine

Obsolete Objects in the Literary Imagination Francesco Orlando,2008-10-01 Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach s Mimesis Italian critic Francesco Orlando explores Western literature s obsession with outmoded and nonfunctional objects ruins obsolete machinery broken things trash etc Combining the insights of psychoanalysis and literary political history Orlando traces this obsession to a turning point in history at the end of eighteenth century industrialization when the functional becomes the dominant value of Western culture Roaming through every genre and much of the history of Western literature the author identifies distinct categories into which obsolete images can be classified and provides myriad examples The function of literature he concludes is to remind us of what we have lost and what we are losing as we rush toward the future

André Breton in Exile Victoria Clouston,2017-09-22 Following the journey of Andr Breton the leader of the Surrealist movement into exile during the Second World War the author of this book traces the trajectory of his thought and poetic output from 1941 1948 Through a close examination of the major and as yet little studied works written during these years she demonstrates how Breton s quest for a new myth for the postwar world led him to widen his enquiry into hermeticism myth and the occult This ground breaking study establishes Breton s profound intellectual debt to 19th century Romanticism its literature and thought revealing how it defined his understanding of hermeticism and the occult and examining the differences between the two It shows how having abandoned political action on leaving the Communist Party in 1935 Breton nonetheless held firmly to political thought moving in his quest for a better world via Hermes Trismegistus across the utopian ideas of Charles Fourier and the magical practices of the Hopi Indians The author finally reveals Breton s misreading of the situation in postwar Paris on his return in 1946 and his failure to communicate the span of his ideas for creating a better society while at the same time maintaining a close connection between art and life

Rousseau, Nature, and the Problem of the Good Life Laurence D. Cooper,2021-12 The rise of modern

science created a crisis for Western moral and political philosophy which had theretofore relied either on Christian theology or Aristotelian natural teleology as guarantors of an objective standard for the good life This book examines Rousseau s effort to show how and why despite this challenge from science which he himself intensified by equating our subhuman origins with our natural state nature can remain a standard for human behavior While recognizing an original goodness in human being in the state of nature Rousseau knew this to be too low a standard and promoted the idea of the natural man living in the state of society notably in Emile Laurence Cooper shows how for Rousseau conscience understood as the love of order functions as the agent whereby simple savage sentiment is sublimated into a more refined civilized naturalness to which all people can aspire

Raymond Queneau's Dubliners James Patrick Gosling,2019-09-12 This work is a broad ranging exploration of two comic erotic and well nigh feminist novels written by Raymond Queneau *On est toujours trop bon avec les femmes* 1947 and *Journal intime* 1950 Both are set in Ireland were initially published by Editions du Scorpion under the pseudonym Sally Mara and then later published together by Gallimard as *Les uvres completes de Sally Mara* 1962 The book examines Queneau s life when he wrote these texts the pervasive Joycean influences his surreal version of the 1916 Dublin Uprising versus the real event his remarkably accurate Dublin city and his use of the Irish language The seven core chapters are explorations of prominent aspects of these works and most involve the solution of puzzles by means of investigations of contexts contemporary events and a wide variety of sources In conclusion the book makes a convincing case for the literary and entertainment value of *Les uvres completes de Sally Mara* as a long planned and subtly integrated work

Looking for The Stranger Alice Kaplan,2016-09-16 A National Book Award finalist biographer tells the story of how a young man in his 20s who had never written a novel turned out a masterpiece that still grips readers more than 70 years later and is considered a rite of passage for readers around the world NoveList
