Oeuvres Completes Vol 1 Theatrepoesie:

Making an Entrance Juliane Vogel, 2022-10-03 How does the entrance of a character on the tragic stage affect their visibility and presence Beginning with the court culture of the seventeenth century and ending with Nietzsche's Dionysian theater this monograph explores specific modes of entering the stage and the conditions that make them successful or cause them to fail The study argues that tragic entrances ultimately always remain incomplete that the step figures take into visibility invariably remains precarious Through close readings of texts by Racine Goethe and Kleist among others it shows that entrances promise both triumph and tragic exposure though they appear to be expressions of sovereignty they are always simultaneously threatened by failure or annihilation With this analysis the book thus opens up possibilities for a new theory of dramatic form one that begins not with the plot itself but with the stage entrance that structures how characters appear and thus determines how the plot advances By reflecting on acts of entering this book addresses not only scholars of literature theater media and art but anyone concerned with what it means to appear and be present *French Theatre in the Neo-classical Era, 1550-1789* William D. Howarth, 1997-06-05 This 1997 book covers the period which saw the establishment in France of a centralized official theatre not only the Comedie Francaise the first national theatre but an Italian theatre and a state opera the often subversive independent theatres are also discussed Nearly 1 000 documents deal with censorship and other aspects of external control company management the acting profession dramatic theory and criticism theatre architecture settings and costumes audience composition and behaviour Over 120 pictorial documents architectural drawings technical engravings frontispieces portraits etc provide a visual dimension where relevant A full linking narrative and a copious bibliography help to make this an important reference work and a valuable research tool

Queer Velocities Jennifer Eun-Jung Row, 2022-04-15 *Queer Velocities* Time Sex and Biopower on the Early Modern Stage explores how seventeenth century French theater represents queer desire In this book the first queer theoretical treatment of canonical French theater Jennifer Eun Jung Row proposes that these velocities moments of unseemly haste or strategic delay sparked new kinds of attachments intimacies and erotics Rather than rely on fixed identities or analog categories we might turn to these affectively saturated moments of temporal sensation to analyze queerness in the premodern world The twin innovations of precise portable timepieces and the development of the theater as a state institution together ignited new types of embodiments orderly and disorderly pleasures and normative and wayward rhythms of life Row leverages a painstakingly formalist and rhetorical analysis of tragedies by Jean Racine and Pierre Corneille to show how the staging of delay or haste can critically interrupt the normative temporalities of marriage motherhood mourning or sovereignty the quotidian rhythms and paradigms so necessary for the biopolitical management of life Row's approach builds on the queer turn to temporality and Elizabeth Freeman's notion of the chronobiopolitical to wager that queerness can also be fostered by the sensations of disruptive speed and slowness Ultimately Row suggests that the theater not only contributed to the glitter

of Louis XIV's absolutist spectacle but also ignited new forms of knowing and feeling time as well as new modes of loving living and being together

If Not Critical Eric Griffiths, 2018-03-16 Eric Griffiths delivered hundreds of lectures at the Faculty of English in Cambridge yet his lectures were never turned into books *If Not Critical* brings together ten lectures published here for the first time that offer a representative selection of Dr Griffiths' original fully argued and richly exemplified contributions to literary criticism and literary history Crammed into his writing are decades of reading in several languages and across most genres and literary periods In these lectures he pursues the blind spots not only of other people's arguments but of the whole business of criticism in general with what he calls its over concentration on a narrow range of examples such over concentration warps our thinking Implicit and explicit throughout his work is the argument that an appropriately wide range of instances is essential to making progress in conceptualisation that what we need in order to do better thinking is a keener attention to a greater variety of examples Such examples include in these lectures the works of Shakespeare Dante Kafka Beckett Racine Rabelais T S Eliot and Jonathan Swift

[Touched by the Graces](#) Buford Norman, 2001 After situating the libretti in the context of French classicism the author first discusses the prologues to the Quinault Lully operas then devotes a chapter to each of the libretti in which he examines such traditional literary elements as performance history plot characterization and style as well as issues more specifically related to musical theater The concluding chapter summarizes what opera can tell us about French classicism and explores in depth some of the key theoretical issues such as representation imitation and recognition

Inscription and Erasure Roger Chartier, 2008-08-25 Roger Chartier examines how authors transformed the material realities of writing or of publication into an aesthetic resource exploited for poetic dramatic or narrative ends

[Classical Unities](#) North American Society for Seventeenth-Century French Literature. Conference, Erec R. Koch, 2002

[The Author's Hand and the Printer's Mind](#) Roger Chartier, 2013-12-06 In Early Modern Europe the first readers of a book were not those who bought it They were the scribes who copied the author's or translator's manuscript the censors who licensed it the publisher who decided to put this title in his catalogue the copy editor who prepared the text for the press divided it and added punctuation the typesetters who composed the pages of the book and the proof reader who corrected them The author's hand cannot be separated from the printer's mind This book is devoted to the process of publication of the works that framed their readers' representations of the past or of the world Linking cultural history textual criticism and bibliographical studies dealing with canonical works like Cervantes' *Don Quixote* or Shakespeare's plays as well as lesser known texts Roger Chartier identifies the fundamental discontinuities that transformed the circulation of the written word between the invention of printing and the definition three centuries later of what we call literature

 Literature, 1400-1700* Francesco Venturi, 2019-05-15 This volume investigates the various ways in which writers comment on
 present and defend their own works and at the same time themselves across early modern Europe A multiplicity of self
 commenting modes ranging from annotations to explicatory prose to prefaces to separate critical texts and exemplifying a
 variety of literary genres are subjected to analysis Self commentaries are more than just an external apparatus they direct
 and control reception of the primary text thus affecting notions of authorship and readership With the writer understood as a
 potentially very influential and often tendentious interpreter of their own work the essays in this collection offer new
 perspectives on pre modern and modern forms of critical self consciousness self representation and self validation
