William Lane Craig

Of Time And Eternity:

Time & Eternity Antje Jackelen, 2005-06-28 What is time Is there a link between objective knowledge about time and subjective experience of time And what is eternity Does religion have the answer Does science Antje Jackelen investigates the problem and concept of time Her analysis of the subject includes The notion of time and eternity as it is narrated through Christian hymn books stemming from Germany Sweden and the English speaking world with insights into changes of the concept and understanding of time in Christian spirituality over the past few decades Theological approaches to time and eternity as well as a look at Trinitarian theology and its relation to time The discussion of scientific theories of time including Newtonian relativistic quantum and chaos theories The formulation of a theology of time a theological mathematical model incorporating relational thinking oriented towards the future the doctrine of trinity and the notion of eschatology Description of editor Time and Eternity William Lane Craig, 2001-03-01 This remarkable work offers an analytical exploration of the nature of divine eternity and God's relationship to time Plotinus on the Appearance of Time and the World of Sense Deepa Majumdar, 2016-04-22 Plotinus c 205-70 was a Neoplatonist philosopher his work posthumously published by Porphyry and divided into six books nine tractates each called the Enneads In this book Majumdar makes a valuable addition to the literature on his work especially Ennead III 7 45 11 13 in particular explaining Plotinus cosmology using the genus species model of soul coordinating the literature on the appearance of time and the cosmos with that on the larger issue of Plotinian emanation and examining the role of soul and the restless nature of soul in this conjoint appearance This book investigates Plotinian emanation its laws of poesis contemplative making and the roles of nature matter logos rational formative principle and contemplation and highlights the subtler details of Plotinus cosmology by disentangling conceptual issues about the nature of soul and self we and their impact on the process of generation of time and the cosmos The Relation of Time and Eternity John McTaggart Ellis McTaggart, 1908 **Space, Time, and Presence in the Icon** Clemena Antonova, 2016-03-09 This book contributes to the re-emerging field of theology through the arts by proposing a way of approaching one of the most challenging theological concepts divine timelessness through the principle of construction of space in the icon One of the main objectives of this book is to discuss critically the implications of reverse perspective which is especially characteristic of Byzantine and Byzantine art Drawing on the work of Pavel Florensky one of the foremost Russian religious philosophers at the beginning of the 20th century Antonova shows that Florensky's concept of supplementary planes can be used productively within a new approach to the question Antonova works up new criteria for the understanding of how space and time can be handled in a way that does not reverse standard linear perspective as conventionally claimed but acts in its own way to create eternalised images which are not involved with perspective at all Arguing that the structure of the icon is determined by a conception of God who exists in past present and future simultaneously Antonova develops an iconography of images done in the Byzantine style both in the East and in the West which is truer to their own cultural context than is

generally provided for by western interpretations This book draws upon philosophy theology and liturgy to see how relatively abstract notions of a deity beyond time and space enter images made by painters

God Realization Glen C. Cutlip, 2001-07-24 Have you ever wondered how it might be that God is to walk with the people of God Have you really contemplated how that God is the all in all in you all Have you ever wondered how God can manifest Himself in an infinite number of places at the same time Just as the

peace of God passeth all understanding and the love of Christ passeth knowledge the realization of God passeth the understanding and the knowledge of the dual mind Accordingly the understanding and the knowledge of the dual mind must cease as it were before the realization of God can manifest itself as it is not just as it might appear to be That is the part as it were must be done away in order for the whole to manifest itself The realization of God is the outcome of realizing the Christ Consciousness that dwells at the Core of all being for we know that at the appearing of the Lord we shall like unto the Lord for we shall see the Lord as is not just as the Lord might appear to be We can now see how that the Christ dwells within all whether it is realized or not for to realize the Christ that dwells at the Core of all being is to realize that it has always been there Therefore the realization of God is the realization that God has been is and shall forever be right where you are the all in all in you all Thus God is ever walking with the people of God It is a matter of realizing how that might be Now is the time for that realization

Creator Peter J. Leithart, 2023-12-05 Discussion about God s work of creation are often overwhelmed by questions such as the age of the earth and the relationship between divine creation and evolution Without completely ignoring these issues this rigorously grounded theological interpretation of Genesis 1 engages thinkers like Plato Martin Luther and Karl Barth
