Our Times, 2007 In Search of Canadian Materials, 1971 *Our Cultural Agony* V. Vycinas, 2012-12-06 Cultural twilight means cultural disintegration or death It means cultural agony Such agony gradually fades into the dawn of tomorrow's culture just as the twilight of a summer's evening proceeds into the daylight of the forthcoming day Consequently cultural twilight or agony simultaneously

is the dawn the milieu of birth of future gods With these words a close interbelonging of the recently published SEARCH FOR GoDS with the present study OUR CULTURAL AGONY is stressed Both of these books belong together and constitute one and the same story While SEARCH FOR GODS deals with man of tomorrow in his venture to find the way which would lead him to his dawning gods OUR CULTURAL AGONY attempts to disclose contemporary man s ways of erring his stray ing ways Moreover just as the way towards man s future gods is simul taneously his way to his true cultural self so are his straying ways his ways of a lack of self Man s way to his true self is his authentic innermost bloody or ex istential way while the way of his lack of self is his inauthentic way The inauthentic ways generally speaking are democratic ways they are the public and common ways of modern society most typical or characteristic of it Accordingly while SEARCH FOR GODS has an individualistic character OUR CULTURAL AGONY has a social character

The Mystery to a Solution John T. Irwin, 1994 When Poe invented the analytic detective genre in the 1840s with the three Dupin stories his underlying project was to examine the very nature of self consciousness But the tradition of detective fiction these stories inspired would draw on only the most superficial aspects of his work One hundred years after Poe however Borges would reinterpret the genre with three detective stories of his own and revive Poe s original ambitious intention to analyze the analytic power In *The Mystery to a Solution* John Irwin brilliantly examines the deeper significance of the genre Poe created and the meaning of Borges s efforts to double its origin Using a methodology that combines history literary history and practical and speculative criticism Irwin pursues the issues underlying the detective genre into areas as various as the history of mathematics classical mythology the double mirror structure of self consciousness handedness the anthropology of Evans and Frazer the structure of chess automata the mind body problem the etymology of labyrinth and scores of other topics Irwin honors the aesthetic impact of the genre he discusses by mirroring in his study the dynamics of a detective story the uncovering of mysteries the accumulation of evidence the tracing of clues and the final solution that ties it all together
