Of Heaven Earth Essays Presented At The First Sitchin Studies Day:

Of Heaven and Earth Zecharia Sitchin, 1997-01-01 **Of Heaven and Earth** Neil Freer, 1996 Presents information on Sitchin's theories about the origins of mankind and the intervention of intelligence from beyond the Earth. He and the other contributors offer a scholarly approach to the ancient astronaut theory. Contains the complete transcript of the first Sitchin Studies Day held in Denver, Colorado on Oct 6, 1996. Following Sitchin's detailed keynote address are six other prominent speakers whose work he has influenced. They include philosopher Neil Freer, UFO expert J. Antonio Huneus, clergyman Father Charles Moore, author V. Susan Ferguson, and two university professors, Madeleine Briskin and Marlene Evans. They agree that certain myths were actual events instead of figments of imaginations. Sitchin's work comprises the early part of a new paradigm that is already beginning to shake the very foundations of religion, archaeology, and our society in general.

The History of the Christian Religion and Church During the First Three Centuries Augustus Neander, 2000-02 Neander was one of the greatest religious historians to have ever lived. In this abbreviated version of a larger work, he covers the current of Gnostic ideas during the formation of Christianity. This topic is important because it outlines all of the competitive beliefs that were at work at the time and how they affected the Christian struggle in both good and bad ways. This rare book may cause one to never look at Christianity in quite the same way again due to its immense scholarship and interesting array of facts.

The Malleus Maleficarum of Heinrich Kramer and James Sprenger Heinrich Institoris, Jakob Sprenger, James Sprenger, 2000 This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts, the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

Early Buddhism T. W. Rhys Davids, Paul Tice, 2000 A step-by-step guidebook to what Buddhism really is and was intended to be perfect for providing a complete overview of Buddhist origins. Paul Tice adds a section explaining how Buddhism was not meant to be a form of religious worship but an important system of ethics that can still bring personal salvation.

William Blake Basil De Selincourt, 2000-01-20 This book outlines Blake's interesting life. Some people thought him to be utterly mad; others considered him a genius. This biography certainly will not be boring to those with an interest in the bold adventures of a unique man who spent his life as a spiritual pioneer.

Reason and Belief Oliver Lodge, 2000-01-20 Some claim that scientific proof is more valid than spiritual experience. Shows that despite physical proof, the impact of science has little effect on spiritual matters. Science is a helpful tool that at times allows us to reach spiritual answers that have so far not been found, but scientists of today often ignore the seers and prophets of the past who have given us great spiritual truths. Lodge reveals the mystical and opens us to the larger possibilities around us.

Ancient Pagan and Modern Christian Symbolism Thomas Inman, 2002-06 An important key to the

origins of Christianity and Western religion Contains clear documented images that can be traced to remote times and shown to be in direct connection to certain origins of belief The symbolic connections between Christianity and the cultures of India Babylonia Assyria and Egypt among others are astounding An indispensable reference for anyone interested in early pagan religions and the foundations of Christianity Little known fact During the filming of The Da Vinci Code movie this book was special ordered as reading material for all cast and crew

Highlights of Templar History William Moseley
Brown, Simeon B. Chase, 2003-04 The Knights Templar is a secret society that has existed for many centuries Few books have been written about them from an insiders point of view This book was originally released by the Grand Encampment of Knights Templar United States of America after seven years of historical research by an assigned committee The author Brown was a member of that committee and their purpose was to provide Templars with an accurate history of their organization It was for members only and much of the information is not found elsewhere We ve also added from another source their Constitution and Abbreviated By Laws out of print for over 100 years as a service for potential members or for those who desire a better knowledge of the inner workings of the Templars These two works combined together will hopefully shed new light on an interesting and sometimes mysterious organization

The Astral World Swami Panchadasi, 2000 The author an Indian spiritual master has written an incredible classic that covers all aspects of the astral world He reveals much of what is missing from the traditional western perspective A great book for curious beginners and serious seekers alike as it is structured to go gradually from simple to advanced information within the span of 100 pages He has been there and returned providing a useful map in the form of this book By either following the map and engaging in astral travel or simply reading this book as an interested bystander one can be assured of having a rewarding experience
